SPURNS LIBERTY AT EXPENSE OF HER SISTER NAN

Mrs. J. Morgan Smith Refuses Opportunity to Go Free on Condition That She Take Chance of Injuring Miss Patterson.

PRISONER AFFECTED BY SISTERLY LOYALTY

Accused Girl Almost Breaks Down in Court—Women Spend Luncheon Period in Their Cell Weeping in Each Other's Arms.

By Leased Wire from the New York Bureau of the Post-Dispatch.

NEW YORK, April 28.—Spurning the promise of Prosecutor Rand to dismiss the indictment for conspiracy now standing against her, if she would answer certain questions, Mrs. J. Morgan Smith, sister of Nan Patterson, the actress on trial for murder, went back to her cell in the Tombs prison this afternoon, rather than take chances of injuring her sister's case and going free.

Mrs. Smith, together with her husband, is now under indictment, together with her husband, on a charge of conspiring together with Nan Patterson to blackmail Cesar Young.

In her testimony today Mrs. Smith told of the relations between her sister, Nan Patterson and Cesar Young; how her sister had expected Young to marry her; how Young had furnished the money with which Miss Patterson secured her divorce; how Nan was thrown into a state of great nervousness by a report that Young had no intention of making her his wife; and how she (Mrs. Smith) had written to Young, without her sister's knowledge, and explained to him the state of her sister's mind and health.

In the course of his examination Mr. Rand asked Mrs. Smith if she had possessed all the information she has testified to in this trial all the time since she left New York last June.

Mrs. Smith replied that she would like to answer the question, but feared it would tend to degrade and incriminate her, as she is under indictment for conspiracy. The prosecutor then promised that if she would answer he would move next Monday to quash the indictment against her, bue she declined to do so until she had an opportunity to confer with her counsel.

After she had consulted with her counsel, Mrs. Smith declined to answer. "I must stick to my sister," she told the prosecuting attorney, as she resumed the stand.

"And you refuse to answer, notwithstanding my promise in open court to have the indictment against you quashed?" asked Mr. Rand.

"I do."

"Again I ask, were you in New York on June 5?"

"I decline to answer."

Recorder Goff directed the witness to answer the question, saying that it called for an answer her, but she declined to do so saying: "I must stick to my sister."

"Will you answer if the indictment for conspiracy on which you are held is dismissed, now?" broke in Mr. Rand.

"No," replied the witness.

The ordeal proved almost too much for Nan Patterson.

The resolute manner in which Mrs. Smith refused to answer questions put to her by the prosecuting attorney and her declaration that she would stand by her sister affected the prisoner deeply, and she was near a breakdown when the luncheon adjournment was announced.

Mrs. Smith appeared to be unstrung as a result of her experience as well, and the two women spent the recess in their cells in the Tombs weeping in each other's arms.

HAIL, RAIN, SUN, NOW TO BE COOLER

One-Fifth Inch Precipitation in 5 Minutes; Thunderstorms Promised for Toight.

One-fifth of an inch of rain, falling in less than 5 minutes, about 1:15 o'clock Friday afternoon, was the first verification of the day's prediction of the local forecast official.

This prediction said "showers and probably severe thunder storms this afternoon or tonight," and with the first of the showers there was a heavy roll of thunder.

There was also, for a moment during the heaviest of the downpour, a sprinkling of hail. While the main rainfall was within 5 minutes, the shower continued for fully 10 minutes longer, the total precipitation being .22 of an inch. Then the sun came out strong.

The local forecast reads:

"[illegible] probably severe thunderstorms this afternoon or tonight; cooler Saturday, fair and cooler; southerly winds, shifting to northwesterly late tonight."

The prospects are that the thunderstorms will be heavy and accompanied by high winds. The actual rainfall, however, is not expected to be very great.

FREE BRIDGE BILL PASSES ITS FIRST READING QUICKLY

Proposed Measure, Approved by House Judiciary Committee of Illinois Legislature, Is Reported and Promptly Voted On.

FRIENDS OF PROPOSITION ARE MAKING FAST FIGHT

Probability That Assembly Will Adjourn Next Friday Compels Utmost Possible Haste in Adoption of Much Needed Legislation.

Special to the Post-Dispatch.

SPRINGFIELD, Ill., April 28.—The St. Louis free bridge bill, favorably acted on by the House judiciary committee yesterday was reported to the lower branch of the Illinois Legislature at noon today.

As soon as Chairman Castle has made his report the proposed measure received its first and was passed to its second reading.

Friends of the bill are trying to make a fast fight, as the lack of time between now and the date of adjournment makes speed of the highest importance.

As the plan is now for a sine die adjournment next Friday, there is little enough time at the best. The intention is to push it through the House in the shortest possible space of time and then send it at once to the Senate.

The friendliness manifested by Gov. Deneen toward the plan for a free bridge convinces its supporters that the proposition will receive his signature without trouble.

SUE MULVIHILL TO TEST HIS POWERS

Attorney Fensky, Who Says He Represents Brewers, Would Seek Damages.

Charles Fensky, who says he is acting as attorney for the brewers of St. Louis, said Friday that proceedings would be immediately begun to declare unconstitutional the law creating the office of excise commissioner.

The proceedings, he said, would take the form of a suit against Excise Commissioner Mulvihill, on his bond, for heavy damages for the revocation of dramshop licenses. It has not as yet been determined, he says, in whose name the suit will be instituted, but it will be in the name of one of the men whose licenses were revoked after the hearing before the excise commissioner Tuesday. The revocation was on th ground that the dramshop keepers had violated the state law by selling liquor on Sunday.

Mr. Fensky says the action may be further continued by bringing suit to compel repayment of the fees collected by Excise Commissioner Mulvihill, which is a comparatively small amount, and his predecessor, Excise Commissioner James Monroe Seibert, during four years, which is a very large amount.

The argument of Mr. Fensky is that the law creating the office of excise commissioner is in violation of Article III and section 1 of Article IV of the Missouri state constitution. The former prohibits the Legislature from passing any law that invades the judiciary, and the latter declares that "judicial powers of the state shall be vested in the courts." He says the Supreme Court has held, in the case of state ex rel against Fort, 107 Missouri appeals, that "exclusive jurisdiction to issue dramshop licenses in all counties of the state is vested in the county courts of the several counties," and that "a county court in passing upon and granting dramshop licenses acts judicially."

He contends, therefore, that the law vesting in the excise commissioner of St. Louis to issue dramshop licenses is an invasion of the judiciary, which is prohibited by the constitution, and that the office is, therefore, illegally created and its acts are without legal standing. He holds that if the excise commissioner has no power to grant licenses, he has no power to revoke them, and that in doing so he is usurping power and renders himself liable to recovery of damages.

The brewers, according to Mr. Fensky, asked him for an opinion upon the subject about the time that Excise Commissioner Mulvihill declared the Sunday closing law must be obeyed on penalty of forfeiture of license. His reply, containing the opinion above quoted, was sent to the brewers Friday.

EYES OF WONDER FOLLOW STRAW HAT

Iowa Arrival Introduces Summer Fedora Under Impression It Was Due in St. Louis.

The first straw hat of the season made its appearance on Olive street Friday morning and it was the observed of all observers.

It was worn by Charles Cass of Council Bluffs, Ia., who had an impression that straw-hat weather arrived a good deal earlier in St. Louis than in Iowa and who, therefore, wore his straw fedora in the belief that it would be seasonable here.

From Union Station he went to the post-office and then on down Olive street to Broadway, a route which was calculated to bring to him the attention which is always bestowed on pioneers.

Scenes In the Marriage License Office During the Rush

BEAR DANCED WHILE MEN FOUGHT FOR HIM

East St. Louisans Enioyed the Impromptu Performance in Crowded Street.

Two men engaged in a fist fight for the ownership of a big black bear, and the bear himself dancing in and out between them in a high state of excitement attracted such a crowd at Sixth street and Missouri avenue, East St. Louis, at 6:45 p. m. Thursday that Policeman Ascherman ran to the spot to see what was the matter.

He arrested the combatants, made one of them hold the big black bear and then telephoned for a patrol wagon to take the two men and the beast to the police station.

Policeman Mulqueeney, in charge of the patrol wagon, when he learned that he was expected to ride back to the station in the same wagon with the bear, protested vigorously, saying that he would take the two men along, but that it would be better for the bear's health to take a gentle walk to the station. At last, however, he was persuaded to let the bear ride and the party reached the police station without trouble.

There the two fighting men gave their names as A. Arsadonian and Joseph Marrissey, both of St. Louis. Marrissey owned the bear, but had recently borrowed $25 from Arsadonian, pledging the bear as collateral. Thursday Marrissey had taken the bear over to East St. Louis, expecting to realize money from exhibiting the trained animal in saloons and on the streets, but Arsadonian thought he was trying to escape with the bear, and followed him.

The two men met, quarreled and fought. Late Thursday night Marrissey went before Justice Stanton and swore out an attachment for the bear, taking possession of it and leaving for St. Louis immediately. A short time later Arsadonian was released.

While the bear was held at the police station it was kept in the cellar and Night Driver George Lynch was sent down there to "see a new horse that was to be taken out that night." It is said that a worse frightened man has never been seen in East St. Louis than was Lynch after a startling encounter with the tame bear in the cellar, the animal playfully trying to embrace him.

The attachment suit instituted by Marrissey against Arsadonian is set in Judge Stanton's court for May 4.

THROWN BY "JACK" TO DEATH IN ELEVATOR

James Hohnen, houseman, was instantly killed in a freight elevator at the Southern Hotel at noon Friday. His head was caught between the car and the parlor floor and his neck was broken.

The man was identified at the morgue as Joseph Hoehnan, 22 years old, who came to St. Louis recently from Hot Springs and lived at 301 Allen avenue. The identification was made by means of a letter from Mrs. E. Holling, proprietor of a Hot Springs hotel, recommending him. This letter was in his pocket.

He entered the car carrying a painter's jack, a sort of a small ladder, to take it to an upper floor. Just before the car reached the parlor floor the jack caught in the grating and was thrown against him, knocking him down. He fell with his head extending through the door way of the car. Before the conductor could stop it, his head was caught between the car and the floor. A doctor was called but there was nothing that he could do.

SPRING BRIDES' RUSH TO WED BEFORE MAY, THE HOODOO MONTH

Marriage License Office Gay With Easter Gowns as Hundreds Call—Interesting Incidents Center Around Many of Cupid's Visitors.

The marriage license office has just had its first rush of spring brides. Since Easter 248 licenses have been issued, the 240th being granted this morning. The rush began Monday with 49; Tuesday the number increased to 62; Wednesday it shot up to 101, and Thursday it dropped back to 32. Today, being unlucky Friday.

This dullness will be only comparative, however, for unless all precedents are overthrown the last days of the month will be busy for the marriage license clerk. This is because of the close proximity of Easter Sunday and Lent.

All the world knows that there are few brides during the 40 days of Lent; therefore, there is bound to be a rush of brides at its close. But it is not so well known, except to prospective brides, that May is a "hoodoo" month, and that to get married in May is the worst kind of luck. Therefore, there are few weddings in May.

This results in an unusual demand for marriage licenses during the six business days between a belated Easter and the first day of the "hoodoo" month.

There have been few of the prospective brides who were not gowned gaily in honor of spring. The red chiffon hat is much in evidence, the green chiffon is a close second. And then come the new polo turbans with their bunches of flowers bobbing like gay plumes of grenadiers on top.

Easter dresses were almost as numerous as the Easter hats. There were few gowns that did not bear the marks of springtime in their material and making; and the courage with which the fair applicants for marriage licenses refrained from wearing wraps during the cooler hours was something admirable to behold.

One of the Easter bridegrooms is 71 years old; his bride is 28. Love spanned the difference of 43 years in their ages without an effort, however, and they were as happy as were the youngest couple, a maid of 16—whose mother was along to give her consent—and a youth of 22.

Neither did distance offer serious obstacles. One man came from Elenore, Cal., to meet a bride from Trenton, N. J., and it was nothing uncommon for bridegrooms to come from far-distant points to wed their St. Louis sweethearts. Neither was it unusual for country couples to come to the city for their Easter wedding. The records show numerous such bridal parties from towns in Illinois and Missouri.

The proportion of negroes who sought marriage licenses was unusually small, but in the number was the delighted Howard McFadden, a janitor at City Hall. Howard is a favorite with the white folks around the marriage license office, and when he said he had found a young woman who was willing to become Mrs. McFadden he decided upon a novel wedding. He wanted to be married right in the marriage license office. It was necessary, however, for him to secure a dispensation, for the custom of having marriages performed in that business-like place is not popular. McFadden's pleas and arguments were successful, and the dispensation was granted. So, Thursday, he and his sweetheart and a preacher went together to the marriage license office, got the license and right there were married.

Another incident of the "rush days" had more pathos in it. Two men entered the office together and asked what was the necessary procedure. They were told it was necessary for the woman to apply with the man. One man was large and jolly, and his smile was wonderful to behold; the other man was also large, but not so jolly—in fact, his face was gloomy. When the clerk told them it was necessary to have the woman present the gloomy man went into the hall. The jolly man leaned over to the clerk.

"I feel kind of sorry for him," he said, jerking his thumb in the direction taken by the departed one. "You see, I'm going to marry his girl. It's breaking him up pretty bad, but he insists on seeing it through. He courted her first, and was hard hit; she promised to marry him. But then I came along, and I tell you when I fell in love with her I fell plumb to the bottom. I guess she couldn't see any way of getting rid of me, so she gave—him"—the speaker hesitated an instant and jerked his thumb again—"the word to go, and took me. Yes, I feel kind of sorry for him."

"Him" came back; and he was, really, making an heroic effort to look pleasant. Two women came with him, but one was only a friend of the bride-to-be.

The smiling man led his fiancee to the desk. She was rosy and smiling, and her bright eyes were tender as she looked into the luminous face of the lucky man. She did not turn to look at "Him."

"Him" watched the process of signing the application and making oath; he watched the other process of preparing and delivering the license to wed. And as the folded paper was given to the bridegroom, and he and the girl turned away, "Him" dropped into a chair and began to weep.

"I feel kind of sorry for him," said the lucky man again, as he, the two women and the clerk looked foolishly helpless until "Him" regained his composure and went out of the office.

MAN OVERCOME IN AIRTIGHT CAISSON

Workman at Union Electric Cofferdam Rescued by Fellows From Death.

While in the first chamber leading into the caisson in which the Union Electric Light and Power Co. is digging to a rock foundation for a new protecting wall at the foot of Biddle street, Peter Clark, a laborer, was overcome early Friday morning.

The caisson is 12 feet underground, and inside of it is maintained an air pressure sufficient to prevent water from seeping through the mud into which the caisson is set. In this heavy air pressure a dozen men work, digging up the mud, which is carried out by means of pneumatic machinery.

The heavy air pressure is a terrific strain upon the workmen, and they are unable to remain long in the caisson. Each, before he enters the caisson, is taken into what is known as the first locker or chamber, where he is subjected to the same air pressure as that in the caisson, and its effect upon him noted.

Clark began work at the caisson two days ago. The shifts are eight hours each, and Clark was attached to the shift that goes on at midnight. He went into the first locker as he started to work, and the air pressure was applied. He weakened under the unusual force, and collapsed. He was immediately taken out of the locker and restorative means employed. Then he was taken to the City Hospital, where Dr. Brown said he would soon be none the worse for his experience.

CHICAGO STRIKE INJUNCTION OUT; BAYONETS NEXT

Federal Court Restrains Interference With Teaming and Employers Plan Request for Protection From United States Troops.

RIOTING ALREADY BEGUN; FOOD SUPPLY IN DANGER

Attacks on Nonunion Drivers Not Prevented Even by Judge's Order—General Walkout Likely to Leave Entire City Hungry.

CHICAGO, April 28.—With rioting and mob violence already begun, United States Judge Kohlsaat issued an injunction today restraining interference with the wagons of the Employers' Association, an organization of all the leading manufacturing, transportation and commercial interests in Chicago.

The injunction is directed especially against the Teamsters' Joint Council. The aid of the Federal court was invoked on the ground taat the Employers' Teaming Co., through which the strike-bound firms are fighting the unions, is a West Virginia corporation.

Judge Kohlsaat made the present restraining order only temporary but arguments on a motion to make it perpetual will be heard May 10.

Thus far there has been no call for troops. In the event of violations of the injunction, however, it is the employers' intention to ask for a federal force.

Gov. Deneen has notyetbeen officially notified of disorders in Chicago, but the captains and colonels of the Chicago militia have, nevertheless, been informally requested to hold themselves in readiness for service.

Labor Ranks Growing.

The number of striking teamsters is now about 3000 but additions are constantly being made to their ranks. The strike-bound concerns include all but one of the big department stores, several coal and teaming corporations and both the United States and American express companies.

With the decision that the battle would be to a finish, the big business houses, backed by a fund of $1,000,000, with the promise of as much more as is necessary to fight the strikers, are making determined efforts to move wagons. Every load that goes out is guarded by from 20 to 100 uniformed policemen, while detectives swarm on the sidewalks in the business district.

Thus far the rioting has been held in check, so that there have been few casualties, but police acknowledge themselves unable to cope with the situation long should the threats of the Federated Unions, be made good to withdraw from work every union man in Chicago. And that this will be done if the fight is seen to be going against them, few profess any doubt now. Two hundred and fifty thousand men will be affected.

While, however, there has been little bloodshed, the path of every wagon moved this morning has been marked by street jams and blockades, and attended by hooting, yelling and jeering that could be heard for blocks above the ordinary din of the city. Stones and bricks were thrown in numerous instances, but against these the clubs of the policemen proved effective.

The first victim of violence today was a teamster seen to enter the Monroe street barns of the A. M. Forbes Cartage Co., whose drivers joined the ranks of strikers yesterday. Pickets gave the word that he had applied for work as a teamster. He was followed by strike sympathizers.

The fugitive attempted to defend himself from the mob, but he was quickly knocked down, kicked, beaten, trampled upon until he was rendered unconscious. Twenty policemen with difficulty rescued him, and he was taken to a hospital, where it is said he is not expected to recover.

Soldiers on the street in the business section gave rise to reports that troops from Fort Sheridan had already been ordered to Chicago to suppress rioting in connection with the threatened wholesale strikes.

Rumor had it that the "regulars" were quartered in the new postoffice. None of the soldiers carried rifles or other arms.

In the corridors of the Great Northern Hotel the story went the rounds that lights were seen burning on the upper floors of the new postoffice at an early hour this morning. Guests at the hotel asserted that several companies of troops were in the structure. Later it was said the soldiers had come to Chicago on social affairs.

Strike leaders announced that newspapers, hospitals and all undertaking establishments will be excepted from the strike list. The United States mail wagons will, of course, not be interfered with. Beyond these exceptions no promises are made.

All Deliveries Stopped.

Even cab drivers will not haul patrons to department stores where the strike is on. The delivery business of the seven railway express companies is completely tied up.

The packers have not been drawn into the conflict yet, but their drivers have ordered not to haul meats to any of the express depots or to railway depots where meats are to be sent by express. One wholesale grocery house, Sprague, Warner & Co., did not turn a wheel yesterday. It will resume deliveries today as best it

ARREST FOILS BOY STUDENT OF BURGLARY

Willie Stuart Descended on Ferguson With Kit of Safeblower's Tools, Revolver and Cartridges.

"I bought the tools on Market street in St. Louis," said Willie Stuart, the 17-year-old lad who is held in the Clayton jail, to a Post-Dispatch reporter Friday morning, "and I intended to be a burglar. I expect to become a finished burglar in time."

The boy was arrested Wednesday night in Ferguson by Town Marshal Graf for carrying a revolver, and when he was searched the following "kit" of burglars' tools was found on him: One brace, one chisel, an inch wide; one 22-caliber revolver with barrel not over one-inch long; one hand electric searchlight, one 6-8-inch bitt, one gouge, two 1-inch chisels, one skeleton key, apparently made from a buton hook; one pair of nippers, one small screwdriver, eight 22-caliber cartridges.

There was also found in the lad's possession a long description of a safe lock, which, he says, he thought would be useful in teaching him the mechanism of a safe and thus enabling him to "blow" it more easily. A list of towns in Missouri and Iowa, written on the backs of public library blanks, was also found in his pocket. Stuart said that this list was intended to guide him in his first excursion as a burglar, although he had not yet decided what town he would visit first.

"I intend to be a burglar," he said. "And I mean to train myself to be a skillful burglar. Therefore, whenever I see anything that promises to help me in my career, I make a note of it."

The youth who thus speaks with such amazing frankness is a good-looking lad, rather large for his age, well built, with brown hair and blue eyes. He says that he has served a term in the Eldora, Ia., reform school for a burglary committed at Monticello, Io., that he has been in St. Louis about six months, that his mother, Mrs. Mary Johnson, lives at 1627 Washington avenue, and that he was employed by the Vannoy News Co., 118 South Eighteenth street, as a newsboy on the St. Louis Valley Railroad, and that his parents formerly lived in Chicago.

Mrs. Johnson, the boy's mother, visited the Clayton jail Friday morning and saw her son. She said that if the burglars' tools were found on him as reported they were given to him by someone else and she was sure that he had no intention of making a criminal use of them.

THE WEATHER INDICATIONS.

Missouri—Showers and thunderstorms and cooler Friday night; Saturday, fair and cooler; fresh southerly, shifting to westerly winds.

Illinois—Partly cloudy Friday night and Saturday with showers and thunderstorms; cooler; brisk southerly, shifting to westerly winds.

NEBOGATOFF IS REPORTED NEAR PENANG ISLAND

Rear-Admiral in Command of Rojestvensky's Reinforcements Is Sighted Off the West Coast of Malay Peninsula.

RUSSIAN SQUADRON IS KEEPING OUT OF SIGHT.

Fleet May Be at Hainan or May Have Gone South to Meet the Reserves—Every Movement Is Kept Carefully Guarded.

ISLAND OF PENANG, Straits Settlements, April 28.—The Russian reserve squadron under Rear-Admiral Nebogatoff has passed this place. The British steamer Catherine Apear, which arrived here today from Calcutta, reports having passed two detachments of eight and seven warships, respectively last night, 60 miles south of Penang. They were headed in the direction of Singapore.

LONDON, April 28.—There no longer remains any doubt as to the intentions of Admiral Rojestvensky. It is now quite apparent to every one that the Russian commander intends to await the arrival of Admiral Nebogatoff and his squadron before proceeding toward Vladivostok.

There is not, however, the same certainty regarding the whereabouts of Rojestvensky. In fact, no person—apparently not even the members of the Russian admiralty—knows where the squadron is at the present time.

Since leaving the vicinity of Kamranh bay the location of the Russian fleet has been a mystery to every one, except possibly the Japanese admiral. Certain it is that the fleet sailed northward from the bay, but how far no person knows.

No additional news has been received from the island of Hainan since the report from Hongkong yesterday that the cable had been cut, and the general belief is that the Russian fleet is now riding at anchor in some one of the harbors of the island, though the belief is at best a guess.

Continued reports come in that the squadron has sailed south to meet the reinforcements, and that the junction will be effected somewhere near Singapore. There is in truth, however, little ground for the reports.

Sponsor Urged to Christen Cruiser With Milk or Water, Says She'll Use Champagne

MARY S. WRIGHT.

Although Scores of Letters to Miss Gladys Smith Advocate Other Liquids, Old Custom Will Be Followed Because of Sailors' Superstitions.

Miss Gladys Smith, who was chosen two weeks ago by Mayor Wells to christen the United States cruiser St. Louis at its launching in Philadelphia, May 6, hopes that the appointment of her two maids of honor will relieve her of part of the avalanche of letters which she has received from persons all over the country, some of congratulation, others of suggestion and more of advice.

Many of these letters have been, of course, from her friends in this and other cities. But over 50 have come from persons whom she is not acquainted with, but who have taken a friendly interest in the affair.

By far the greater number were temperance letters suggesting anything and almost everything as a substitute for champagne. Crystal water, St. Louis water, plain filtered water, Lake Michigan water, sea water, and in one letter the good points of milk were set forth.

None of the correspondents advised the use of beer. This, Miss Smith's father says, is because all the letters are of serious intent.

One of the letters suggests that instead of champagne red burgundy be used. The writer gave an account of the history of the custom of christening ships.

According to him it originated with the Vikings. When they launched a ship they bound a man to the ways, and when the ship passed over and crushed him his red blood spouted up and stained the bows of the vessel.

When the Vikings became more civilized this custom was abolished and red burgundy was substituted for blood and in time the significance of the color was lost and white wine came to be used.

Champagne to Be Used.

In spite of the movement to do away with the custom-honored beverage, champagne will be used in the christening. Mr. Smith has received official word from Philadelphia that there will be no departure from the usual custom. The superstition of the sailors and many of the officers in the navy concerning the use of anything else besides champagne is given as the reason.

Miss Smith will be assisted in the christening by two maids of honor, Miss Mary S. Wright of St. Louis and Miss Rebecca Van Lennep of Philadelphia. Miss Wright is a daughter of Mr. and Mrs. George Wright of 4457 Westminster place, and is a senior at Mary Institute. Although not in the same class as Miss Smith, who is a junior, the two belong to the same fraternity—the Delta Kapa Phi—and are close friends.

Miss Van Lennep is a daughter of Dr. and Mrs. William B. Van Lennep of Philadelphia.

The party from St. Louis to attend the christening of the St. Louis will leave for Philadelphia next Thursday noon. It will include Mayor Wells, Mr. and Mrs. Smith and their daughter, Gladys. Mr. and Mrs. Wright and their daughter, Mary, and several other St. Louisans who have received special invitations from the Neavie-Levy Ship Building Co., who built the cruiser and will be hosts at the christening. The party will make the trip in a private car.

The launching will take place at 3:30 Saturday afternoon, May 6. After the christening a luncheon will be served at which Miss Smith will be the guest of honor, and which will be attended by many prominent officials of the navy, army and government.

FOUND SHOT LYING IN MUD

Machinist Said He Didn't Care What Became of Him.

Lying bleeding in the mud of the Pittsburg dump, near the Valley elevator in East St. Louis, a revolver clutched in his hand and a bullet wound in his left breast, Frank Garvey, a machinist in the Shickle-Harrison iron works, was found by H. S. De Few, an employe of the Valley elevator about 11 o'clock Thursday night.

"I don't care what becomes of me," he said, in answer to the first questions put to him, and thereafter he was silent. Policeman Mike Dumphrey took the wounded man to St. Mary's Hospital, where the bullet was extracted. It is said that he will recover.

Garvey is a brother of ex-Alderman John Garvey of East St. Louis. He lives at 1017 Pigott avenue, and has a wife and one child.

WELLS NOTIFIED OF CONTEST

Talty to Bring Proceedings Over Mayoralty Election.

Notification will be served on Mayor Wells Friday by a deputy sheriff, that a suit contesting his election, April 4, is to be brought by John A. Talty, the Republican candidate, who was defeated.

Deputy Sheriff Goldstein started out to serve the papers Thursday afternoon, but as the mayor was attending the funeral services of the late Judge Thayer, service was deferred to Friday.

BUSINESS MAN IS INDICTED

Lawrence M. Jones, Charged With Obtaining Money Under False Pretenses.

REAL ESTATE TRANSACTION

Another Man and Woman Also Held in Connection With Deal.

In order, it is said, to prevent failure of prosecution by a plea of exemption due to the statute of limitations, which would be effective after today, the April grandjury made a partial report to Judge Foster Friday, returning 17 indictments, one of which is against three Kansas City persons, and the time-limitation for prosecution in which is said to expire Saturday, April 29.

This indictment is made on a charge of obtaining goods by false pretenses, and is against Lawrence M. Jones, a leading business man in Kansas City; Mrs. Jennie Schott and Monroe M. Fitzgerald, the two latter being now residents of Kansas City, but having formerly resided in St. Louis.

The indictment was returned on complaint of David Lanznor, who conducts the Central Market Furniture Co., 2719-2727 Franklin avenue, St. Louis, who testified that on Sept. 7, 1901, he traded his stock, valued at $10,000, to the defendants for certain real estate and other property in Kansas City and vicinity. He received in part payment for his stock, he says, one four-story building, which defendants represented to him was valued at $12,000; two lots valued at $6000, one lot valued at $500, one lot valued at $800, one lot valued at $700, and one piece of land in Kansas City, Kan., which they claimed was worth $8000, this making a total of $27,800 in partial payment.

Lanznor testified further that when he took possession of the property thus transferred he found that it was not worth the amounts represented by the defendants, and that some of it was practically valueless, being covered with water. He says that the defendants were indicted by a St. Louis grandjury on this same charge in July, 1903, but that the indictment was quashed on a technicality as being defective.

can, but other big grocery houses will become involved.

Commission men on South Water street are anxious to keep out of the struggle, but admit that it will be impossible. Most of them are now receiving the greater part of their commodities by express, and the railway express drivers are on strike.

The strike leaders believe that their chance of success lies in calling out their men as fast as possible.

Meanwhile the employers are watching developments closely and counteracting every move of their opponents in a systematic fashion.

A dispatch from Springfield, Ill., says that Mayor Dunne was suddenly called home today. Mayor Dunne had expected to remain in Springfield throughout today, discussing gas legislation with members of the House.

The information which called the new mayor back to Chicago came in a long-distance telephone message from Joseph Medill Patterson.

INJUNCTION MAY COST $2000

The village of O'Fallon can have an injunction against the East St. Louis & Suburban Electric Railway Co. if it cares to pay the price. The price is a $2000 bond, to protect the company from loss.

Judge Holder of the Circuit court at Belleville Thursday notified W. H. Bowler and others, who had applied for an injunction restraining the company from running a steam locomotive over the streets of the village, that the injunction was ready for them, but it would only be delivered to them on the presentation of a good bond for $2000. The bond has not been furnished yet.

The engine is being used temporarily on construction work under an ordinance granting permission. It is contended, though, that the ordinance is void because in conflict with the franchise of the company for the operation of "an electric railway."

OHIO SOCIETY TO DINNER.

D. D. Woodmansee of Cincinnati Guest of Honor at Jefferson.

The ninth annual dinner of the Ohio Society of St. Louis was held Thursday night at the Jefferson Hotel and a hearty welcome was extended to the guest of the occasion, D. D. Woodmansee of Cincinnati.

Walter J. Blakely, president of the society, was toastmaster and delivered the address of welcome. Following Mr. Woodmansee, Dr. William G. Moore, president of the Kentucky Society, delivered an address. Walter J. Blakely recited "The Harvester" and Miss Gertrude D. Quarles rendered several vocal selections.

Wife Shook Finger in His Face.

W. J. Thomas filed suit for divorce from Mrs. Lillian A. Thomas at 3139 Clifton place, Friday morning. He alleges she stayed away from home between 1 and 5 o'clock in the morning. He said she swore at him, stuck her finger in his face and treated him cruelly and inhumanly. They were married May 14, 1896, and separated April 19, 1905.

MYSTERY WHY SHE TRIED TO KILL SELF.

MRS. LEO MCKEAND

WOULD END LIFE, GIVES NO REASON

Handsome Woman Takes Carbolic Acid, but Sister's Prompt Act Saves Her.

"I had my own reason for doing this, and no one else is responsible," said Mrs. Hattie McKeand of 2307A North Market street when taken to the City Hospital Thursday night after having drunk carbolic acid to end her life. Friday morning she was out of danger.

Mrs. McKeand, whose husband, she says, is a ticket-writer for his stepfather, a bookmaker at the St. Louis racetrack, was seen by Mrs. C. U. Fox, who lives in the same house, to swallow some liquid from a small bottle. Mrs. Fox hurriedly grabbed the bottle and made Mrs. McKeand take an emetic, which soon partially relieved her, and then she was sent to the City Hospital. It was at first thought that her condition was critical, but about midnight she began to improve.

Mrs. McKeand is a handsome woman, about 23 years of age, dark complexion and hair, very red lips and with dazzling white teeth. She says that she formerly lived in Paris, Mo., and that her maiden name was Spaulding. About six years ago, she says, she attempted to commit suicide on account of being forcibly separated from a young man with whom she had eloped, but was prevented by her mother.

"The third time I try it I'll be successful," she said Friday morning.

Her husband, Leo McKeand, called at the City Hospital to see her Thursday night. He is said to have once been postmaster at some point in Oklahoma.

FR. COFFEY WON VESTMENTS

Before an audience of 3000 persons Rev. Father James T. Coffey, pastor of St. Leo's Church, was made the possessor Wednesday evening of the beautiful vestments for which he and Rev. Fathers Gavin and Lloyd have been the contestants for several weeks. The vestments are of rich velvet, beautifully embroidered. The contest was decided by vote. Both the other priests had a good following, but Father Coffey's majority was in the neighborhood of 5000.

Before the closing of the contest the drama "Shamrock and Rose" was given by the Irving Dramatic Club, under the direction of Miss Neoma O'Brien. Specialties introduced between the acts were well received. Miss O'Brien's friends, though well pleased with the program, were disappointed because she did not sing. After the drama and contest there was a short dancing program.

The entertainment was given for the benefit of the new parish hall, which the members of St. Leo's congregation hope to build, and was under the auspices of Branch 204, Catholic Knights and Ladies of America.

SALOON FIGHT STABBING FATAL

Thomas Dawson, Cut in Row Over Empty Beer Bottles, Dies at Hospital.

Thomas Dawson, 17 years old of 2310 Stoddard street, died early Friday morning at the City Hospital, from a stab wound in the abdomen, inflicted by William Fox of 2234 Olive street at the saloon of George Schmidt, 2237 Olive street, Wednesday [illegible] a fight over some empty beer [illegible] to an interrupted telephone con[illegible] and a little strategy on the [illegible] Special Officer George Greeley that Fox was under arrest to answer to the charge of killing Dawson.

At the time of the cutting Fox escaped. Thursday afternoon Greeley was at the saloon trying to get a trace of Fox, when the bartender answered a telephone call. The fragments of the conversation which Greeley heard convinced him that the man at the other end was Fox and that he was inquiring about the condition of Dawson.

Greeley quickly placed his hand over the transmitter and then ordered the bartender to tell Fox that Dawson was only slightly injured, that the police knew nothing about it, and suggesting that he come down to the saloon.

Fox came to the saloon in a little while and Greeley arrested him. His record is now being looked up.

The Mystery Solved.

THE REASON FOR THE RUIN OF MUCH COMPLICATED MACHINERY.

No Mystery Here.

Man has often been compared to a complicated piece of mechanism. He is a wonderful piece of machinery, more wonderful than anything he has ever been able to create, and he has created some remarkable things. And yet man, the machine, is different from any other machine. An engine, for instance, requires power to drive it. There must usually be a boiler in which may be generated the necessary steam to start the engine and keep it going. Man combines within himself the engine and the boiler in one. The stoker must keep his boiler fires free from clinkers and ashes, and the engineer must keep his engine clean and its parts well oiled. So it is with that human engine and boiler. It too must be kept free from the accumulation of waste matter and must be cleansed and oiled in all its parts or else there will be a rupture of some of the delicate adjustments.

If assimilation be not good then the fires do not burn freely, there are ashes and clinkers in the system. In which case the effort to do the work required of the human engine, the heart overworks, the liver and kidneys are put under great strain, the bowels become clogged. Alcoholic drinks and medicines are harmful because they act on the food to render it less digestible. It is easily proved, for a piece of beef if soaked in alcohol a few hours becomes hard and tough. Test a medicine by adding it to the clear white of an egg. If it instantly coagulates *the proof* that it is an alcoholic compound is shown and is transformed into hard albumen and drops to the bottom. *The result* of taking an alcoholic tonic is that animal food in contact with it remains undigested. The person is then filling his piece of human machinery with waste matter. He clogs the blood and the nerves, and the heart and the kidneys, and the liver and the bowels. He then *wonders why the old machine does not work well.* He wonders why there is a wearing of parts, why all these parts of his mechanism grind and groan and rub, and why he cannot get all the labor out of them that he expects.

Long ago while in the active practice of medicine among the leading families of Western Pennsylvania, Dr. R. V. Pierce came to the conclusion that tonics and blood purifiers that depended to a certain extent on the exhilerating effect of alcohol had an after depressing effect little to be desired—he also found that there were wonderful tissue-building and reconstructive virtues to be found in the shape of certain roots and native medicinal plants—some of them have been known and recognized for centuries by the early American Indians. They were:

Golden Seal (*Hydrastis Canadensis*).
Queen's root (*Stillingia Sylvatica*).
Stone root (*Collinsonia Canadensis*).
Cherrybark (*Prunus Virginiana*).
Bloodroot (*Sanguinaria Canadensis*).
Mandrake (*Podophyllum Peltatum*).

By careful study and experiment Dr. Pierce learned how best to extract the medicinial virtues from these plants in just the right proportion to make a *life-giving* tonic and blood-maker. King's Dispensatory which is an acknowledged authority on the scientific value of medicines says of *Queen's root:* "An alterative unsurpassed by few if any other of the known alteratives, most successful in skin and scrofulous affections. Beneficial in bronchial affections—permanently cures bronchitis—an important cough remedy—cures coughs of years standing. Aids in blood-making and nutrition." The same author says of *Wild-cherry-bark:* "This has a tonic and stimulating influence on the digestive apparatus—gives tone and strength to the system. Useful in fever, cough and found excellent in consumption. *Stone root*, he says is an alterative and tonic stumulant, valuable in laryngitis. In speaking of *Bloodroot* he says it stimulates digestive organs as well as does *Golden Seal*, which cures dyspepsia.

AUTO TIPS, OCCUPANTS ESCAPE

Dr. and Mrs. C. F. Blank and Dr. and Mrs. H. L. Nietert Have Close Call in Collision.

Dr. Charles F. Blank and wife of 1323 South Broadway and Dr. H. L. Nietert and wife of 3618 Russell avenue were congratulated Friday by their friends on their narrow escape from injury in a collision between a street car and the automobile in which they were riding Thursday evening. The collision occurred on Virginia avenue. A Cherokee car struck the auto and turned it over and the occupants were thrown out, but they were not hurt. The automobile was damaged about $75. Mrs. Blank and Mrs. Nietert are daughters of ex-Mayor Ziegenhein.

SPRING CATARRH

Changeable Weather Causes Disease. Breathe Hyomei and Cure Catarrh.

The changeable weather of spring, with its warm days and cold nights, is responsible for a great increase in the number of cases of catarrh. It is now that Hyomei, the only guaranteed treatment for catarrh that cures without stomach dosing should be used in every home.

Hyomei is a scientific method by which pure air impregnated with nature's own remedies for the cure of catarrh, can be inhaled by every sufferer in his or her home. Breathed through the neat pocket inhaler that comes with every outfit, its healing, volatile, antiseptic fragrance reaches the lungs and air passages as no stomach dosing possibly can do. It gives immediate relief and makes lasting cures.

Proof that the Hyomei treatment will do all that is claimed for it is found in the guarantee under which Judge & Dolph and the Wolff-Wilson Drug Co. sell it, an agreement to pay back the price, if the purchaser can say that Hyomei has not given satisfaction. Complete outfit for $1.00; extra bottles, 50c.

No Big Bottles or Bitter Doses.

It's bad enough to have to take medicine. It's positively discouraging when you must keep in sight or carry around a big, ugly bottle and swallow spoonfuls of nauseating liquids every little while.

Eupepsia Tablets come in a neat little bottle, enclosed in a neat little box and you can carry the whole outfit in your vest pocket. The tablets are just the size to swallow easily, and are dissolved in the stomach, so they are very pleasant to take.

Eupepsia Tablets are not an Experiment. They have been recognized for years as a standard and never-failing remedy for Indigestion and all other Stomach Troubles. They are as safe as they are sure, for they are purely vegetable and contain no poisonous or habit-inducing drugs.

If you suffer from Dyspepsia, heartburn, bad breath, sleeplessness, dizziness, loss of appetite, oppressed feeling after eating or any stomach derangement due to imperfect digestion, Eupepsia Tablets will cure you, quickly and absolutely. They are sold at all drug stores or sent direct, under a distinct guarantee to cure or money refunded. Price 50 cents.

If you will send us your address we will mail you enough Tablets for three days trial treatment and our treatise on Stomach Trouble, free of charge.

Uncle Zeke's Philosophy.

When I see a man who never smiles over a quarter of an inch wide, I know he doesn't believe in Heptol Splits.

This here thing called success is a matter of liver. There never yet was a man with a bad liver who had the ambition to succeed. If I had my way they'd teach in every school that Heptol Splits makes active livers and successful men.

It takes more than "bein' willin'," to get rich. You've got to be willin' to work. Riches is a good deal like Heptol Splits—it ain't no friend to lazy livers.

NEW YORK BANK OUT $2,000,000 BY DEFAULTS?

Wall Street Stirred by Rumors That Trust Company Is Involved, but Story Is Not Verified by Clearing House.

MAY BE CANARD OF STOCK SPECULATORS

Heirs of $1,000,000 Estate Looted by Frank G. Bigelow Conducting an Investigation—Assistant Cashier Still Missing.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, April 28.—There is a report in Wall Street that one of the large financial institutions is in trouble. According to rumors, an official of the institution in question has been found by the directors to be short in his accounts, involving the funds of the concern between $1,750,000 and $2,000,000.

It was said that the institution was a trust company and the situation is known not only to its directors, but also to the state banking department, which has begun an examination to determine the exact condition of affairs.

The Post-Dispatch made a canvass of the presidents of all of the leading financial institutions in an effort to verify the report, but no verification was obtained. Several banking officials have heard the rumor, but disbelieve in its truth.

Some expressed the belief that the report might very probably have been put out to affect the stock market, which is now in a sensative condition. On this theory, it was said to be the idea of the promoters of the rumor to cause a further decline in prices.

President J. Edward Simmons of the Fourth National Bank said he had heard through a friend of the rumor of a $2,000,000 defalcation in a financial institution, said to be a trust company.

"I went to the clearing house," said Mr. Simmons, "and saw Mr. Nass. He said nothing was known at the clearing house of any shortage and he did not believe there was any truth in the story."

Mr. Simmons said that the rumor as it reached him had it that the directors of the institution had called a meeting for yesterday, at which it was probable they would take necessary action.

Story Not Credited.

President A. B. Hepburn of the Chase National Bank, said he had seen a message over a private wire from Chicago saying there was a report there of a shortage of $2,000,000 in a New York financial institution. Mr. Hepburn said he did not believe the story, and had been unable to verify it. As New York financial institutions were now managed, he said, no such shortage was possible.

William Sherer of the clearing house said he had heard the rumor in Wall street. No shortage, Mr. Sherer said, had been reported to the clearing house. "I do not believe there is a word of truth in the rumor," he said.

Jefferson M. Levy, who is connected with a number of financial institutions, said he had heard the report of a $2,000,000 shortage, but believed it was merely a stock market echo of the Milwaukee banking affair.

Speculation was named in the report as the cause of the shortage, and it was said that the first inkling of the trouble came about a week ago, at about the time of the 10-point drop in certain leading securities on the stock market.

It could not be ascertained what connection there was, if any, between the wheat speculation and the alleged defalcation in this city.

At Albany State Bank Superintendent Kilburn said he had heard of no defalcation.

Brodhead Starts Inquiry.

NEW YORK, April 28.—John G. Brodhead of Kingston, N. Y., one of the heirs of the Brodhead estate, of which Frank G. Bigelow of Milwaukee was a trustee, has just started for Wisconsin from this city.

Concerning the affairs of the estate, he said:

"Though several statements have already been imputed to me concerning the Bigelow failure, I have made none until the present. Edward H. Brodhead, who was my uncle, died in 1890, leaving about $1,400,000. About $500,000 was shortly thereafter disbursed under the provisions of the will. The balance, with a present value of about $800,000, was put under trusteeship for the benefit of myself and my children.

"The estate included real estate valued approximately at $700,000 and $100,000 in bank stocks. Besides, there was about $32,000 in cash derived from the sale of real estate and other sources in the hands of Mr. Bigelow.

"I am advised by my lawyers in Milwaukee that the real estate is intact, but as to the bank stock I know only what I have read in the press dispatches, which say that Bigelow made use of the stocks. Of the cash I may only assume that it was deposited in the bank to the credit of the beneficiaries under the trust."

Forepaugh-Sells Monday.

The annual St. Louis engagement of the Forepaugh-Sells Circus begins at Handlan's Park Monday afternoon next. The show this year is practically new. Messrs. Ringling Brothers and James A. Bailey, the present proprietors, have had agents visiting the capitals of the world in search of novelties and features, with the result that Forepaugh-Sells opened the season Saturday last at Columbus, O., to an afternoon gathering of 12,000 people. Many circus men, from all over America, attended the opening, and had only the warmest praise to offer in way of congratulations. A new spectacle opened the performance, filling the entire hippodrome oval, three rings and two stages with men, women, horses, elephants and camels in glittering costumes and accouterments, presenting a series of allegorical tableaux, picturing America's opening of the Panama canal to the nations of the world. This was followed by many new and novel circus features, wonderful riders, graceful equestriennes, daring aerialists, many kinds of trained animals and 40 funny clowns.

RECORDS MISSING, CLERK IN JAIL

Madison Official, Unable to Produce Election Documents Before Grandjury, Committed.

THINKS THEY WERE STOLEN

Excuse Two Years Ago Was That High Water Washed Village Accounts Away.

L. A. Arras, village clerk of Madison, Ill., is locked up in the Madison County jail at Edwardsville for contempt of court, consisting in failure to produce the village records and records of the recent election for the inspection of the grandjurors. He says the records were stolen from his office the night after the summons to produce them was served on him.

The disappearance of the records became known to the grandjurors at 4 o'clock Thursday afternoon, when Arras was called into the room. He was expected to bring with him the village records and the election documents, but he came empty handed.

Shortly afterward there came from the grandjury room a unanimous request to Judge Burroughs of the Circuit court to discipline Arras. He was taken into court and questioned. He was given to understand that his explanation of his failure to comply with the court's order was not satisfactory. The judge committed him to jail in contempt of court until he produces the records and satisfy the court and grandjury that he cannot do so.

An attorney has begun habeas corpus proceedings on his behalf.

The clerk's office in Madison occupies half of a large room. The other half is occupied by cells of the calaboose. A wire partition divides them but does not obscure the view. Arras says he thinks somebody entered through a window and abstracted the records from his desk. He says he was so shocked when he discovered the theft that he has not checked up to find what is missing, but it is said that the ballots cast at the last election and the tally lists are missing.

Two years ago, when village affairs were being investigated, it was claimed that high water had washed away the records.

LID COMING UP DESPITE TAFT'S 6TH OF A TON

All of Secretary of War's Mountainous Bulk Insufficient to Keep Down Trouble Over Government Affairs in Venezuela.

PRESIDENT COMING HOME: LOOMIS ISSUES DENIAL.

News That Roosevelt Has Cut Short Hunting Trip Followed by Repudiation of Accusations by South American Dictator.

By Wire from the Washington Bureau of the Post-Dispatch.

WASHINGTON, April 28.—All of Secretary of War Taft's 300 pounds weight has not sufficed to keep down the lid on administrative troubles at Washington.

No secret is longer made of the fact that President Roosevelt has cut short his hunting trip and is coming home on account of the Venezuelan scandal in the State Department. The impression is that Minister Bowen will soon be recalled.

In the meantime Assistant Secretary of State Loomis has issued a statement categorically branding as false every material charge made against him at Caracas and transmitted to this country by Minister Bowen.

He admits that he received a check for $10,000 from the asphalt company, but in exchange for it he says he gave checks of his own equal in amount. He says the transaction was made when he was leaving Venezuela and was to save him trouble. He paid the customary rate of exchange. There was in this transaction no thought, intention, purpose or suspicion of wrong doing.

Every action taken with respect to the asphalt trust claim or any other claims pending against Venezuela, he asserts, was taken upon orders from the State Department, the records of which he claims will bear him out.

Secretary Taft admitted today that the charges against Mr. Loomis were sent to him by Minister Bowen, and that they were in the form of an official transmission of mere gossip. It is felt here that unless he can back up the charges with something worth listening to, the only course left for the President will be to dismiss him out of hand.

Loomis Is Emphatic.

The Loomis statement was prepared by the assistant secretary after many consultations with Secretary Taft. Mr. Loomis spent nearly all of Thursday in preparing it. His endeavor was to use all the words he could think of to make the denial strong. After he had prepared it he decided that he would not discuss any phase of the subject.

So far as can be learned, the assistant secretary has never offered any criticism of Mr. Bowen, other than that he appeared to allow President Castro to influence him too much.

The most prominent figure in the scandal is that same Cipriano Castro. He is the only man who can laugh. When Francis B. Loomis became persona non grata to him he had Loomis recalled. Then came Bowen. Bowen did everything possible to stand well with Castro. He went so far as to accept Castro's commission to come here and undertake the settlement of the claims Great Britain, Germany and Italy were presenting to him out of the mouths of cannon.

It is believed that Castro is of the opinion he has got all he can out of Bowen, and that the time has come for another man to be sent to Caracas as minister. It is believed that Castro's influence caused Bowen to commit the blunder of transmitting the gossip that reflected so greatly upon the career of Loomis.

Consular Agent Randolph Dolge, who came here a week ago for the purpose of telling Secretary Taft about the shortcomings of Minister Bowen, is believed to have fallen under the influence of the Venezuelan President and to be, unconsciously, of course, playing a part of the game which Castro now has on his hands.

It is known that for a long time the President has planned to switch a number of ministers at South American capitals. The Venezuelan case will simply hasten the general shake-up, with the probability that Bowen will be separated from the diplomatic service altogether and John Barrett, now minister to Panama, will be asked to fill the vacancy.

President Is Ill.

NEWCASTLE, Colo., April 28.—President Roosevelt had to keep to his camp nursing a case of illness on yesterday. The rest of the party went out, however, and returned late with the skins of four bears. Two of the animals were full grown; two were yearlings weighing about 200 pounds each. All four were killed by Dr. Lambert. The fact that the doctor went on the hunt while the President was sick in camp proves that the illness was not serious.

SHOCKED AT TOP OF POLE

Lineman's Hands Burned in Contact With Live Wire.

Frank Ousler of 2203 Olive street, a Bell telephone lineman, came in contact with a live wire at the top of a pole at Tamm and Manchester avenues at 11:30 o'clock Friday and was severely shocked and his hands were burned. Roy Springgate of 3546 Itaska street and Herman Perelman of 1804 Sidney street assisted him to the ground.

He was taken to a physician's office in the neighborhood and from there went home on a street car.

More Boys to Learn Gardening.

Plans are in progress to extend the accommodations and increase the enrollment in the junior school of horticulture of the Civic Improvement League, which has been conducted for the past two years on the property of the Shaw estate, on Shaw avenue, east of Tower Grove avenue. Accommodations will be provided for 500 boys and girls. A 10-acre plot of ground will be divided into garden spots and instructors and implements will be furnished by the league. Lessons will be begun May 1 and will continue until the crops are harvested.

DOES YOUR BACK ACHE?

Thousands of Men and Women Have Kidney Disease and Do Not Know Until It Has Developed Into Bladder Trouble, Rheumatism, Diabetes or Bright's Disease, Which Will Prove Fatal if Not Attended To at Once.

IT'S YOUR KIDNEYS!

Pains in the small of the back, painful passing of urine, inflammaton of the bladder, torpid liver, cloudy urine, pains in the back of the head and neck, rheumatic pains and swellings all over the body, eczema and jaundice tell you your kidneys are diseased and are not able to do their work properly. If you have any of these symptoms, great care should be taken to stop the progress of the disease and prevant it becoming chronic and pregnating the entire system.

WARNER'S SAFE CURE

G. F. Clements, the noted professional runner and one of the athletic trainers at Harvard College, says:

"Warner's Safe Cure did wonders for me. About a year ago I was run down from over-training on the track and in baseball. I suffered continually, and was obliged to drop everything connected with athletics. One day a friend recommended Warner's Safe Cure as a general tonic and kidney builder. After trying a sample bottle I began to feel brighter, and when three bottles were gone I had regained my old-time athletic vigor and health.

"I heartily indorse the medicine, not only as a tonic but especially as an infallible cure for kidney troubles."

IF IN DOUBT MAKE THIS TEST

Put some urine in a glass; after it stands 24 hours, if you find a reddish, brick-dust sediment in it, or particles floating in the urine, or the urine is milky or cloudy, you will know your kidneys are in a diseased condition and are unable to perform their work; the result will be the bladder and urinary organs will become inflamed, uric acid will poison the blood, the stomach will become affected and unable to digest the food, the system will become weak and the result will be a breakdown, of the general health, with Bright's disease or diabetes, which will prove fatal if not treated with promptness and great care.

Cures Kidney Disease

Warner's Safe Cure is purely vegetable and contains no harmful drugs; it does not constipate; it is a most valuable and effective tonic, and is a stimulant to digestion and awakens the torpid liver, putting the patient into the very best receptive state for the work of the restorer of the kidneys. Warner's Safe Pills, taken with Warner's Safe Cure, move the bowels gently and aid a speedy cure.

WARNER'S SAFE CURE is now put up in two regular sizes and is sold by all druggists, or direct, at 50 cents and $1.00 a bottle.

Beware of so-called kidney cures which are full of sediment and of bad odor—they are positively harmful and do not cure.

Happy Is Tiny Patient With "Pig" Bank for Coins to Buy Wooden Leg

WILLIE BICKELL.

Five-Year-Old Willie Bickell, the Pet of City Hospital, Loves All Mankind Save Policemen, as One Chased Him Under Cars, and He Nearly Lost His Life.

"Hello, Bill, why the pig?"

"Don't you call me Bill. That ain't my name."

"So?"

"My name's Willie Bickell. An' the pig. Why, that's to get me a wooden leg."

Then Willie explained to those who have won his confidence that he has been in the City Hospital since Oct. 17, and that never again will he have more than one leg and one hand which are his own.

"Willie is just past 5, and he talks with much less shuddering about lost hands and legs than would you. He does not shudder at all, in fact, and laughs while he talks. The pig is a china pig, and he always keeps it on his cot beside him. It is being filled with pennies, nickels, dimes and even quarters by the host of friends he has made in the seven months he has been in the hospital.

He tells you he does not know how much he has toward the artificial limb. He knows he has "one pig full," and the childish bank he has at his side appears to be half filled.

Willie is the pet of the hospital. Nurses come from all the wards each morning to shake his tiny hand. They have been doing that for months. Doctors, interns and convalescent patients never pass his cot without stopping to speak to him. He likes, too, the toys they bring him, for never was nursery better supplied than is the cot occupied by this tiny patient.

Fell Beneath Car Wheels.

If you ask him who he likes best he is very apt to answer, "Miss Long." Miss Long is the nurse who has been the constant attendant of the boy since that day last October when he fell beneath the car wheels. She has supplied his every want as far as they were within human power, and has watched over him with a mother's love.

But if there are those Willie loves, there are also those he hates, and it is a bitter hatred, too. Those about the hospital have never heard him speak against anyone except policemen, and he groups them all together. His childish vocabulary has not the words to express his views, while his imagination carries him to the time when he will be a big, strong man, able to get revenge for the wrongs he thinks he has endured. If you ask him to tell his story, he will comply.

"Yes, me an' another little boy had been out hunting. We were hunting birds. An' a big policeman starts to run after me, and he chase me, an' chase me, an' I run right into the cars and was runned over. But when I get away from here, I'll get me a big gun, an' I'll go into my house, an' then I'll holler until a whole lots of policemens come, and then I'll kill 'em all."

When little Willie was picked from beneath the car wheels, at Macklind avenue and the Missouri Pacific tracks, his little body mangled, he was taken to the hospital, and it was thought he would not recover. His right leg was amputated above the knee, and his right hand is gone, with the exception of two fingers.

From the beginning a bright child, his wits have been sharpened by his constant association with his elders at the hospital, and he now talks readily. He sits on his cot all day, playing with his toys and shouting salutations to those passing through his ward, or the one adjoining.

He is always bright, and has never been known to cry with the exception of the first night he reached the hospital. In fact, the nurses say his cheering manner has much to do with keeping other patients in the ward from thinking and worrying over their own troubles.

Willie's mother lives at 1633 Macklind avenue, and comes several times each week to see the child. Both mother and son are getting anxious for the time to come when he can be discharged from the hospital.

All at the hospital will be sorry to see Willie leave, for he is the life of the old building.

TRIAL 10 DAYS PROVES

Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficatious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for uterine trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular menstruation, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that bearing-down feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, at Lynn, Mass., for further free advice. No living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

There is Just One Woodbury

John H. Woodbury D. I.

AN OPEN LETTER.

John H. Woodbury D. I. Addressed a Few Words to Those Who Do Not Believe that Dermatology Can Bring About Such Results as Are Daily Produced in the Five Establishments of the John Woodbury Dermatological Institute.

It is always worth while to talk to sceptics, unbelievers, disbelievers and doubters. This kind of mind—the mind that doubts, that does not allow itself to be easily convinced—forms the solid, conservative, useful element of society.

Once bring conviction to doubting minds and you therein find your most enthusiastic apostles. It was the conservative men and women who scoffed at Galileo; it was this type of humanity that laughed at Christopher Columbus. In our own day we have lived to see the rout of those who pronounced "wireless" telegraphy an "impossibility." As Whittier says:

Every age on him who strays
From its broad and beaten ways
Pours its seven-fold vials.

Curiously enough, there are still in the community women and men who do not believe that Dermatology is an established art, that can clear the Complexion, remove Facial Blemishes, nourish the Hair and restore it, and make Features that are abnormal (either congenitally or through accident, regular, symmetrical and sightly.

Does history repeat itself? Let us see.

GALILEO—The discovery announced by this great Italian is now a part of the mental equipment of tiny pupils in primary schools. John H. Woodbury D. I. has discovered a way to remove wrinkles. If you doubt it, come and be convinced.

COLUMBUS—After bitter and heart-rending experiences, Columbus found a new world. John H. Woodbury D. I. offers to find a new world for all who suffer from any facial disfigurement, skin, scalp, features. The world of society and business is really a new one to the woman or man who meets it with prepossessing appearance.

PASTEUR—How they laughed at the spurned "germ theory." John H. Woodbury D. I. removes the microbe of unhappiness from the mind of the woman or man who has a bad skin, scanty hair, or featural deformity.

GAS—When illuminating gas was first talked of, as a writer of the time said:

"I'm thankful that the moon and stars
Were both hung up so high
That no presumptuous hand can reach
To pull them from the sky.
If 'twere not so, I make no doubt
That some conceited ass
Would like to pull them from the place
And light the world with gas."

John H. Woodbury offers treatment for all Skin, Hair and Featural troubles that are as thoroughly demonstrated as is the practicability of the use of gas.

PRINTING—Even printing was looked on with suspicion. "An invention of the evil one" it was called. It is for this reason that many old printers' marks have on them the cross, to show that the evil one was not a partner to his art.

John H. Woodbury D. I. thanks the printing art for what it does for him—it enables HIM to talk to YOU.

STEAMBOAT—"Any engine big enough to forge the hull ahead will be so heavy that it will sink it." That was the solemn judgment on Fulton's proposition.

John H. Woodbury D. I. knows that every day just such seeming wise criticisms are passed on Dermatological treatment. But the ocean greyhounds and the John H. Woodbury Dermatological Offices both belie these prior estimates.

REPUBLICAN GOVERNMENT—Here was a matter about which there could be no doubt. No republic could exist in America, England was too strong. The colonies had no army. The colonies had no leader. Later, in the times of the civil war, the wiseacres said: "See, it is an impossibility." Take one look at "Old Glory." That "impossibility" looks pretty real.

John H. Woodbury D. I. has practised the Art of Dermatology for thirty-five years. If the time argument is good in the one case it should be in the other.

Hon. D. B. Hill said in the course of an oration:

"An institution which has existed a score and a dozen years must necessarily have had for its guidance something inherently substantial—some permanent excellence interwoven with its activities."

It is needless to multiply examples. The main thing is to come to the point to be established.

How did each and every one of these things come to be recognized as an accepted fact? How did the Telephone, the ocean Cable, any and all of the very recent additions to the sum of man's achievements, come to find a place in the mind of every thoughtful and thinking individual? The obvious answer is: "By demonstration."

Granted.

The following is submitted by way of demonstration:

30,000 Patrons in 1904!

John H. Woodbury D. I., in the course of the past year treated 6,427 cases of Skin Diseases; removed 17,631 Facial Blemishes; successfully attended to 3,923 cases of Scalp and Hair Troubles, and corrected Crooked and Irregular Features to the number of 1,850.

If this list be not enough call and investigate. But in any event, if you suffer from Blackheads, Pimples, Pustules, Eczema, Eruptions or any Skin Trouble; if you have Warts, Wens, Superfluous Hair, Moles, Birthmarks, Freckles, Liver Marks or any bodily or facial blemish; if your hair is Falling, Splitting, Getting Gray or full of Dandruff; if your Nose is Humped, Crooked, or Red; if your Ears Stand Out or have Attached Lobes; if your Lips are Thick or Protruding; if anything ails your personal appearance, call upon or write to John H. Woodbury D. I.

ARE YOUR KIDNEYS WEAK?

Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

To Prove What the Great Kidney Remedy, Swamp-Root, Will Do for YOU, Every Reader of the Post-Dispatch May Have a Sample Bottle Sent Absolutely Free by Mail.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

I was out of health and run down generally; had no appetite, was dizzy and suffered with headache most of the time. I did not know that my kidneys were the cause of my trouble, but somehow felt that they might be, and I began taking Swamp-Root. There is such a pleasant taste to Swamp-Root, and it goes right to the spot and drives disease out of the system. It has cured me, making me stronger and better in every way, and I cheerfully recommend it to all sufferers.

Gratefully yours,

MRS. A. L. WALKER, 331 East Linden St., Atlanta, Ga.

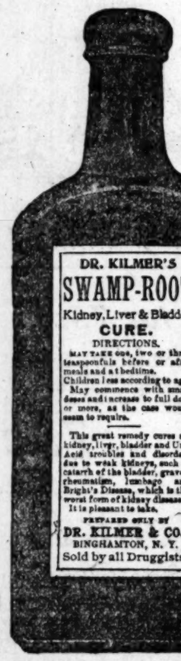
Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering and fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; make your head ache and back ache, cause indigestion, stomach and liver trouble, you get a sallow, yellow complexion, make you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.

How to Find Out.

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have kidney ailments, because they recognize in it the greatest and most successful remedy for kidney, liver and bladder troubles.



(Swamp-Root is Pleasant to Take.)

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name—Swamp-Root (Dr. Kilmer's Swamp-Root)—and the address, Binghamton, N. Y., on every bottle.

SPECIAL NOTE.—So successful is Swamp-Root in promptly curing even the most distressing cases of kidney, liver or bladder troubles, that to prove its wonderful merits you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands upon thousands of testimonial letters received from men and women cured. The value and success of Swamp-Root is so well known that readers are advised to send for a sample bottle. In sending your address to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in the St. Louis Daily Post-Dispatch. The genuineness of this offer is guaranteed.

Crisis In Belleville! Merry Milkmaids Cannot Find Cows Enough for All

MISS MYRTLE WHITE.

Several Have Already Entered Voting Contest Using Pumps Instead, Like the Mercenary Dairyman, and They Expect to Win, Too.

There are so many merry milkmaids in Belleville that there are not enough cows to go around and some of them have been compelled to fall back on the accommodating pump, which is, according to tradition, often the dependence of the mercenary milkman when the cows go dry.

There are close to 50 of them who are going to take a day off from their dairy duties May 11 and sing their light, merry mel-lo-dees at Liederkranz Hall and all of them are in the voting for the belle of the merry milkmaids, the merriest of the merry lot.

There are to be honors for the belle of the milkmaids such as were never yet the lot of a Belleville milkmaid. She is to be proclaimed the belle of all the milkmaids "in public on the stage," while the other milkmaids wave their handkerchiefs and the farm hands whoop their joy and the rest of the populace acclaim, and all in all it's to be an honor to make any milkmaid proud, whether her talents are exercised on a real cow or a real pump.

Miss Myrtle White is confessedly a milkmaid without a cow to milk, but she has a very dependable pump and her friends say that a milkmaid with a drove of lowing kine would not have much advantage over her in the merry milkmaid contest.

The merry maids and merry men had a very successful rehearsal Thursday night. Friday night 56 members of the Junior Bible class, to which the maids belong, will go to East St. Louis to attend a performance of "Pinafore," to be given at the High School auditorium under the direction of Prof. M. E. Johnson, the director of the "Merry Milkmaids." They will leave the public square at 7 o'clock.

WRITERS ORGANIZE AT DINNER

St. Louis Poets and Novelists Form a Social Society With Fifty-Two Members.

Forty-five St. Louis poets, story writers and novelists assembled at the Jefferson Hotel Thursday evening, enjoyed a banquet, organized a society and adopted a constitution.

The objects of the society are strictly social. A committee consisting of former Lieutenant-Governor Charles P. Johnson, John F. Magner and Mrs. Florence M. Ladin was appointed to agree upon a name for the organization, to be voted upon at the next meeting, which will be held the latter part of May.

Officers will then be elected.

The invitations to attend the meeting were sent out by M. A. Aldrich, a St. Louis newspaper manager, and the constitution adopted was modeled by him after that of the Papyrus Club of Boston, of which he is a member.

Former Congressman Nathan Frank presided as toastmaster. The only toast, which was drunk standing, in water, was to the health and safety of the President of the United States.

Dr. J. M. Ball was named as temporary secretary. J. W. Buell was selected as host for the next meeting, and upon him will devolve the duty of selecting a place of meeting and arranging the menu.

Fifty-two tickets were sold for Thursday evening's dinner. About 25 of the number were ladies.

SEEKS SON ACROSS THE SEA

Woman in Scotland Writes to St. Louis to Find Him.

A letter addressed to the "Church of Christ, Disciples of the Lord, St. Louis, Mo., U. S. A." and signed by Mrs. Maria Flatt Gifford, "124 Findochty, Banffshire, Scotland, N. B.," has been delivered to Rev. Mynor J. Mace, pastor of the Colored Christian Church, 3652 Lucas avenue, and by him reported to the Post-Dispatch.

The letter makes inquiries for the writer's son, who, it is stated, has been missing for some years. About four years ago, Mrs. Gifford writes, he was known to have been in St. Louis, and stopped at the Merchants' Hotel, Twelfth and Pine streets. The missing man is a carpenter, has fair complexion, light auburn hair and is 35 years old.

INDIAN SUPPLY BIDS HERE.

Bids for furnishing drugs, boots and shoes and hardware to the government for the use of the Indians were opened Thursday afternoon at the Indian warehouse, 602 South Seventh street. Ten days will be required to canvass them before awards are announced.

The competition in the bidding was lively, and F. E. Leupp, commissioner of Indian supplies, stated that the government would get the goods at a fair market price.

There is nothing you can buy in St. Louis that costs so little in proportion to its value as want ad space in the columns of this newspaper. 14 words in the form of a message can be sent into 125,000 St. Louis homes for a few pennies. See the want pages. See the messages. See the rates.

NICARAGUAN TO LOSE BRIDE

Announcement Made That Engagement of Diplomat to Georgia Woman Is Broken.

Special to the Post-Dispatch.

MACON, Ga., April 28.—Although no announcement has been made, it is understood here that the marriage arranged between Mrs. Ilah Dunlap Jordan of this place and Senor Luis Corea, Nicaraguan minister to the United States, has been broken off. It is said the breaking off of the match is due to sensational stories published regarding Senor Corea.

While these stories are said to be utterly untrue, the notoriety was painful to Mrs. Jordan and her family. Mrs. Jordan is very wealthy, having inherited a fortune from her husband, and is considered one of the most beautiful women in the South.

100 MILES OF GAS CONDUITS.

Laclede Company to Illuminate Street Excavations With Lanterns.

E. C. Cowdery, general manager of the Laclede Gaslight Co., called at the City Hall Friday morning to pay his respects to Andrew J. O'Reilly, the new president of the B. P. I.

Mr. Cowdery said that his company expected to lay 100 miles of new gas conduits throughout the city this year at a cost of between $500,000 and $600,000.

The work necessitates numerous excavations in the streets. While the streets are opened the company is required to illuminate them at nights with red danger signals. The gas company keeps a large supply of these signals in stock, for the small boy likes to carry them off to play fireman with. The youngsters sometimes replace the lamps after they grow tired of playing with them, but in many cases the company never sees them again.

YOU NEED GOOD BLOOD IN THE SPRING

It Is The Season When Your System Demands Thorough Renovation and Building Up.

All nature takes on new life in the spring. Vegetable and animal life is imbued with greater vitality and force and activity of all kinds is increased.

This is the time of year when the human system is sluggish and run down and needs complete renovation and repairing. The whole body and all its organs need to be in the best condition of health.

The greatest blood purifier and blood builder is AEG-AN-IURN. It thoroughly cleanses the blood of all impurities and poisons which have accumulated during the winter months and rebuilds the blood and makes it clean, healthy and strong.

AEG-AN-IURN insures perfect digestion and regularity of the bowels. It instills new life, health and vitality into the whole system.

"I have taken only two bottles of your AEG-AN-IURN," writes a St. Louis lady, "and I feel altogether like a different woman. Before, I was pale and weak and could hardly lift one foot before the other. Now, I feel like a young girl. It has strengthened me all over and through and through. My friends are all asking me what it is that makes me look so well. I am praising AEG-AN-IURN to all of them."

If you are suffering from any organic weakness or disease or any rundown, weakened condition, dyspepsia, catarrh, constipation, torpid liver, kidney or bladder trouble, rheumatism, gout, female complaint, nervousness, nervous prostration, nervous or general debility, neurasthenia, or any weakness, get a bottle of AEG-AN-IURN from your druggist and you will notice the improvement at once.

AEG-AN-IURN is for sale by all druggists at $1 a bottle, and one bottle will give you a new lease on life.

"I PREPARE BREAKFAST FOR 30 BOARDERS ON A GAS STOVE."

Don't get the idea that a gas range is a sort of summer stove to be used only for light cooking or warming up something for supper. The more people you cook for the more reason why you should COOK WITH GAS.

A gas range will bake, boil, broil, roast, toast, simmer, stew, poach or fry anything. It will do anything that any other cooking apparatus will do—and it will do it more quickly, promptly and more cheaply.

Hear what this lady says:

Gentlemen—I have used Gas for cooking and heating water for the bath for the past four years. I have a three-burner Gas Stove, and **often prepare breakfast for thirty boarders on same.** Gas is by far the cheapest fuel I can use.

Very respectfully,

Enthusiastic commendations of the establishment of the vast fund by Andrew Carnegie, for the endowment of retired college professors, were received by the Post-Dispatch from educators from all over the country.

President Harper of the University of Chicago, in a telegraphed statement, said he considers the endowment the most significant step in the interests of higher education of the last 25 years.

President Henry S. Pritchett of the Massachusetts Institute of Technology who, with Frank K. Vanderlip of New York, who has been collecting data upon which Mr. Carnegie worked out the details of the plan of endowment, said last night in Boston that the plan was original with Mr. Carnegie. In discussing it he said:

"I regard Mr. Carnegie's gift as one of the most important and far reaching ever made to education. It will establish, upon broad and general lines, a system of pensions in a sufficiently large number of American institutions to insure its general adoption as a part of the administration of our higher institutions of learning. This will go far to give dignity and security to the calling of the professor."

President Jacob Gould Schurman of Cornell, a trustee of the "Carnegie foundation," said today: "This is the wisest thing ever done for higher education in America."

President Hadley of Yale said: "It is an exceedingly valuable gift, of whose uses we shall know more in the future than we do now."

Prof. George Park Fisher, one of the oldest professors of Yale, said: "I do not believe any college professor would in any way object to being pensioned from such a fund."

President L. Clark Seelye of Smith College, a trustee of the fund, said: "It will be of incalculable benefit to the colleges. It will make the profession more honorable, and at the same time attract and retain in the profession those who are best qualified to instruct in higher institutions."

President W. H. P. Faunce of Brown University said: "I only hope that Mr. Carnegie's agents will consider whether it might not be well to distribute the available fund among the different institutions whose professors are to derive benefit from it, rather than to hold the lump sum under a board of independent trustees."

President W. R. Harper of the University of Chicago said: "This gift will give the college professors a position of dignity greater than ever before. No class of men more richly deserve appreciation of this kind than the professors."

President Charles W. Eliott of Harvard University said: "Unquestionably it is very valuable benefaction to the cause of education."

David Starr Jordan of Stanford University said: "Our universities recognize that the successful professor takes the vow of poverty. In making adequate provision for retiring professors a certainty throughout the country, Mr. Carnegie has done a noble piece of work for American education. It will serve to bring better men into the profession of higher education and will strengthen the hands of those now engaged in the work."

ATTORNEYS COME TO BLOWS DURING TRIAL

Former Mayor of Kansas City Punches Opposing Attorney During Hearing of Case.

Special to the Post-Dispatch.

KANSAS CITY, Mo., April 28.—James A. Reed, ex-mayor of this city and candidate for governor, and Milton J. Oldham, an attorney, came to blows in Justice Jenney's court during the trial of George F. Brooks, whom Oldham was defending. Ex-Mayor Reed was assisting the prosecuting attorney.

After Oldham had made a remark particularly annoying to Reed, the latter said: "If you don't stop using such language I'll"—

"What's that?" exclaimed Oldham, springing to his feet.

"I'll"— began Read again, and, stepping quickly around the end of the table that separated them, he struck Oldham in the face with his clenched fist. The court called time at this point and ordered the combatants to their corners.

"I'll not take any action in this matter," said Justice Jenney, "as there has been entirely too much unpleasant language used in this trial. Proceed with the case."

After the trial was over, Reed apologized to the court.

Sailor Pressed Into Russian Service at Port Arthur Earns $25,000 as Pilot.

SAN FRANCISCO, April 28.—Pressed into the Russian service as a pilot at Port Arthur and kept from returning to his home for nearly a year longer than he had intended to be absent, Capt. John B. Aulin has returned to find his wife divorced and the custody of their four children awarded to her.

Explanations, a reconciliation and a remarriage followed today. He returned with $25,000, most of which he made running blockades before he was impressed by the Russians. The lobe of an ear is missing and scars across his face tell of narrow escapes.

PENNSYLVANIAN IS SOUGHT IN ST. LOUIS.

W. G. BERKHEISER.

Walter G. Berkheiser, a shipper for the Philadelphia and Reading Coal and Iron Company in Frackville, Pa., is missing under peculiar circumstances.

Berkheiser, who is about 25 years old, has been in ill-health, and secured a three weeks' leave of absence, beginning March 15. In the belief that traveling would be beneficial, it was arranged that he should go West, and he started at once.

On March 21 he was seen in Pittsburg, from which city he was to have started West. No word has been received from him for four weeks. An acquaintance is reported to have found trace of him in St. Louis.

NEW PRESIDENT OF SHURTLEFF COLLEGE

Rev. John D. S. Riggs of Ottawa University Chosen to Succeed Rev. Stanley A. McKay.

The trustees of Shurtleff College, Upper Alton, have elected Rev. John D. S. Riggs, Ph. D., LL. D., president of Ottawa University for the past ten years, president of Shurtleff College, to succeed Rev. Stanley A. McKay, who resigned last month, the resignation to take effect at the close of the present scholastic year, in June.

The trustees feel that Dr. Riggs will make a worthy successor to Dr. McKay. Dr. Riggs took his academic studies in Shurtleff College, and afterwards graduated from the old University of Chicago in 1878. For one year he taught in Salt Lake Academy, and in 1879 was elected principal of the preparatory department of Kenyon department of Denison University, closed its doors and Dr. Riggs was made joint principal of the University Academy of Chicago.

In 1887 Dr. Riggs organized the preparatory department of Denison University, of Granville, Ohio, and nine years later he was called to the presidency of the Ottawa (Kan.) University, which position he holds today.

Dr. Riggs is a minister of the gospel, though he has never been a pastor. He will come to Upper Alton and take charge of the college's affairs upon the retirement of Dr. McKay in June.

Woman Burns to Death.

Special to the Post-Dispatch.

JOHNSTOWN, N. Y., April 28.—Miss Nancy Petrie, 97 years old, burned to death at her home in Pine Grove. She was the oldest spinster in northern New York. A bonfire was the cause of her death. Miss Petrie was picking up brush and leaves on the grounds of her brother's place and putting them on a burning pile of straw.

A boy out in the rain in a "Hercules" Suit is happy in the knowledge that when he reaches home his mother will have no occasion to say "My son, you are soaked to the skin, take those clothes off instantly."

The shower proofing process does not rob "Hercules" cloths of their softness of finish, of their beauty in coloring, nor impair their wear a particle; it simply makes "Hercules" clothes shower and perspiration proof and thoroughly sanitary and hygienic.

Every thread of cloth in a "Hercules" once grew on a sheep's back; not a trace of ordinary or mercerized cotton will you find.

If you have a sturdy boy who goes through ordinary clothes so quick that you wonder how he does it—fit him out with a "Hercules"—you will see the difference in a few days.

Hercules two-piece knee-pant suits fit Boys from 6 to 16 at one price everywhere—Five Dollars.

Noted Producer Offered Chair of Dramatic Art at University of California.

BEN GREET.

Ben Greet, who is to begin in St. Louis next week a 10 days' revival of the Elizabethan drama, producing several of the plays of Shakspeare and the old fifteenth century morality play, "Everyman," is the English producer and actor recently offered the chair of dramatic art at the University of California.

* * *

Mr. Greet has arranged a suitable scale of prices for this festival. They will range from $2 for single box seats at the double performance of "Hamlet," and $1.50 for seats at the same performances, in the parquet, to a 25-cents to $1 schedule for the other performances. A season ticket sale will open April 24.

He will bring a company of English players who have been much enjoyed and commended ever since they came to America. Mrs. Crawley, who is to be seen as Viola and some of the other Shakespearean women characters which will display to advantage her beauty and ability, is one of the two leading women of the troupe, the other being Miss Agnes Scott. Other players in the company, aside from Mr. Greet himself, are Percival Aylmar, Sydney Greenstreet, Eugene Cleeves, Frank Darch, Lawrence Dunbar, Redmond Flood, S. H. Goodwin, Helena Head, Hubert Osborne, Daisy Robinson, Maurice Robinson, Mr. Crawley (who played Death in "Everyman," at the Odeon last season), Leonard Shepherd and Sybil Thorndike.

* * *

The Olympic Theater is to close its season in something of a whirlwind of fun, judging by the great joy of the critics along the line of the westward march of Joe Weber's All-Star Stock Company, which will follow "The Yankee Consul" at the big Broadway theater, opening Sunday night, May 7. The Weber company has been playing in New York all season, producing "Higgledy-Piggledy" and "The College Widower," the last-named a burlesque upon George Ade's "The College Widow." Both were written by Edgar Smith. The company which Weber will bring will be something of a hummer, including, as it does, Marie Dressler, Trixie Friganza, Sam Collins, Aubrey Boucicault, Bonnie Maginn, Frank Mayne, May McKenzie and Sam Marion. The music is by Maurice Levi. Philadelphia critics who have just seen the production say it is the best thing the famous New York funmakers have had, not excepting some of those with which Weber and Fields formerly made a spring tour of the country after their New York season.

* * *

Ivan Caryll, who wrote the music of "The Earl and the Girl," on being asked to lead the orchestra at the opening performance of this new Shubert musical importation, which was given at the Garrick Theater, Chicago, four weeks ago, made the following answer:

"Unless it be music of the highest quality, full of theme and eloquence, and of the grand-opera kind, it is impossible for a composer to interpret his own work with the same enthusiasm and genius as can another. Where so many composers of the modern operas make mistakes is in insisting on leading their own music. It is axiomatic that a composer has certain notions and ideas about interpreting his own music, which, right or wrong, he insists on, but which an outsider can easily see should be done away with. For these reasons, while I will be pleased to be present in Chicago at the opening, I must insist that someone else should lead the orchestra."

* * *

Raymond Hitchcock, the little star of "The Yankee Consul," has a line or two which is a clever return at that species of the human race which is ever claiming the authorship of epigrams, sayings and saws of some one else. In the Hitchcock instance it comes after he has proposed a toast.

"Clever," says the company, "is that your own?"

"Ever hear it before?" guardedly asks the comedian.

"No," is the answer.

"Yes, it is a little thing of mine. Clever, isn't it?"

* * *

Raymond Hitchcock, to be seen here in "The Yankee Consul," was formerly a shoe clerk in Auburn, N. Y., but that was some few years ago. The editor of the daily paper at one time needed an amateur for a production he gave and he selected Mr. Hitchcock. A year or two later the shoe store had been abandoned for a small part in a traveling company, and since that time Mr. Hitchcock has risen rapidly, until now he is among the foremost comedians and most popular stars in America.

* * *

Miss Flora Zebelle, prima donna of "The Yankee Consul," is the daughter of an Armenian clergyman. She gave up her home life for the stage.

* * *

Tonight at the McKinley High School a lecture on the meaning of Beethoven, by William Schuyler, and illustrations from the works of the same composer, by Chas. Kunkel, will be given. The concert is free. Everybody is invited. The program follows:

HELD AFTER SALOON ROBBERY

Frank Sutter of 1707 Biddle street, Peter Tierney of 1207 North Fifteenth street, Edward Green and John Kelley are held at the Carr street police station on suspicion of knowing something of the robbery of the saloon of the late Bernard McGinty, 1527 Biddle street. The saloon, which has been closed since the suicide of McGinty Monday, was entered by some young men who broke out a panel of a rear door. A boy who saw them coming out told the police. Sergeant Meyers and Policemen Hutton and Hayes saw several young men a little later on the corner. When they approached the young men ran. They pursued and fired several shots. They caught Sutter, but the rest got away. The other three under arrest were captured later.

1/4 SIZES IN 75 STYLES OF ANKLE-FIT OXFORDS

The new Regal Oxfords are most remarkably different from any other line of low-cut shoes that can be shown to you.

We have built all of this Spring's Oxfords on special Oxford lasts, while other manufacturers are still using *one* set of lasts for both High shoes and Oxfords. Regal Oxfords cannot chafe at the heel nor gape at the sides—while other Oxfords are almost certain to do *both.*

We have produced a complete line of new Oxfords in *Quarter Sizes* while other manufacturers are still offering you *Half Sizes* as their nearest approach to perfect fit.

We use only the best leathers that can be tanned—while other manufacturers are shaving down the quality more and more to make up for this season's higher cost of leather.

We prove every Regal claim *before* you buy—except those that can't be proved till afterward, and those we *guarantee.*

We *say* that Regal soles are honest, old-fashioned, live-oak leather, and we *prove* it by the "Window of the Sole".

We *say* that every hidden part of the Regal is made of the best material that can be worked into shoes—and we prove it over and over again with the Regal buzz-saw.

We *say* we offer you a "six-dollar shoe at the wholesale price"—and we *prove* it.

We *say* the Regal will outwear any shoe made, at *any* price—and we *guarantee* it.

The "PEG"
One of the snappiest models of the year. A great favorite with young business and college men. Made in Black Gun Metal, Russet and Patent Leathers, with light extension soles, military heel.

DOCTORS CHEATED TO GET LICENSES?

Member of State Medical Board Says Five Were Detected in Last "Exam."

USED SIGN LANGUAGE

St. Louis Physicians Discuss, but Do Nothing About Alleged Unfairness.

The St. Louis Medical Society is considerably worked up over cheating, said to have been carried on when 157 young physicians from all parts of Missouri were examined in St. Louis by the State Board of Health, April 10, 11 and 12.

That such cheating was detected is testified to by Dr. M. M. Hamlin of 2902 Lawton avenue, the St. Louis member of the board.

It is the province and the duty of the State Board of Health to examine physicians who appear before it, and to grant them licenses to practice medicine in Missouri, if they pass the examination satisfactorily.

This fact is what makes the action of the board of interest to the St. Louis Medical Society. The matter was taken up at the meeting last Saturday night.

A prominent physician is authority for the statement that Dr. Villray P. Blair, a professor at Washington University, and Dr. N. B. Carson of 3561 Olive street addressed the society concerning the subject in hand.

Dr. Blair said that Washington University men who were examined had told him that cheating was largely indulged in, but that they declined to furnish names, fearing that such information might stir up matters so that another examination would be ordered, and that they, as well as others, might have to undergo another examination before being granted licenses.

Dr. Carson told of reports of cheating which he had heard.

No Action Taken.

A member moved that Dr. Blair and Dr. Carson be named as a committee to lay this information before the state board of health for action, but they declined to do so, and there the matter rests for the present, as far as the St. Louis Medical Society is concerned.

Ever since the examination members of the board have been busy examining the papers submitted. Next Monday, May 1, they will meet at Jefferson City and make their report, and then the fate of the 157 applicants will be made known.

Dr. Hamlin, the St. Louis member of the board, said Friday:

"The other members of the State Board of Health are Dr. A. W. McAlester of Columbia, president; Dr. B. G. Dysart of Paris, vice-president; Dr. A. W. Morrow of Kansas City, secretary and conductor of examinations; Dr. J. T. Thatcher of Oregon; Dr. D. T. Powell of Thayer and Dr. J. A. B. Adcock of Warrensburg.

"Before each examination each student is required to sign a pledge that he does not know the questions about to be propounded, and that he will neither seek information concerning them nor accept information from others.

"When cheating is discovered, the conductor or any of the board members in attendance does not inform the applicant that he is discovered, but merely takes his name and enters a check against it on the list. When the papers are examined his are thrown aside, and he is refused a license to practice and no reason given.

Five Are Guilty.

"There is no use to tell a man that he has cheated; he is the first to know it.

"I know of five persons who were guilty of such dishonesty during the recent examination.

"Dr. Morrow saw two men cheating and at once entered a check against their names. They were signaling to each other across a room 80 feet long by means of the deaf-and-dumb alphabet.

"He took a book from the lap of another applicant, but said nothing. A check opposite his name tells the story to the board.

"We have it on pretty good authority that one applicant offered another man $100 to let him sit near him and copy his answers. The papers were identical in all essential parts, but the cheater displayed so little common sense in those parts of his papers that were original that he would have failed to pass, anyway.

"There is no occasion for the St. Louis Medical Society to fear that unworthy applicants will be permitted to practice in this state."

TO BE SICK IS NOT A CRIME

Nevertheless Aged Woman Had to Answer That Charge.

SPRINGFIELD, Mass., April 28.—Because they refused to become inmates of the state poorhouse at Tewksbury, Mrs. Kate Hurd and Mrs. Susana Sarkis were in police court today charged with being "sickly women." Both defendants are aged and in somewhat destitute circumstances. They strenuously resisted efforts of the state agents to pauperize them. Judge Rosemorth dismissed the cases with scant consideration.

ROBBED BY THREE MEN.

Raymond Fagan of 2008 Stoddard street reported to the police Friday that he was robbed by three men at the southeast corner of Glasgow avenue and Stoddard street at 2 o'clock Friday morning.

He says two men held revolvers at his head while a third searched his pockets, taking $25.50 from the inside pocket of his coat. He was on his way home when the robbery occurred. He gave the police fairly good descriptions of two of the men, but could not describe the third.

Stabbed in Family Fight.

William Cayteu, aged 22, and Harry George, his brother-in-law, both of 908 Chouteau avenue, are at the City Hospital as a result of a three-cornered fight in their home, and Arthur Cayteu of the same address is being held by the police pending the outcome of the injuries of the other two. The three are said to have engaged in a combat over a family matter. According to the police George stabbed William Cayteu in the breast. Cayteu is in a serious condition.

KILLS WOMAN, THEN HIMSELF

Kansas City Man, Who Robbed Mother, Ends Life at Hot Springs Through Jealousy.

HOT SPRINGS, Ark., April 28.—W. H. Wilder, formerly of Kansas City, Mo., shot and fatally wounded the woman who has been known here as his wife last night, and then, after telephoning for the police, fired a bullet into his own brain, killing himself instantly. It is said that jealousy was the cause of Wilder's act.

Police here have communicated with Wilder's mother at Kansas City. She says that the woman shot by her son was not his wife. Mrs. Wilder also declared that before leaving home her son had robbed her purse, leaving her without funds and that she did not believe she had enough money left to bring the body back for burial.

His Shot in Head Fatal.

George B. Synette, aged 34, of 2116 Lucas avenue, who had survived since Monday with a bullet in his brain, died at the City Hospital Thursday night at 6 o'clock. Synette shot himself, leaving a note to his wife saying that he feared the appetite for liquor and rather than become a drunkard he would die.

Kirkwood Woman Presents New Clothes to Youth Going to Reform School for Theft.

In a brandnew suit of clothes, the gift of Mrs. Mary Kinkead in Kirkwood, whose home he robbed, Pleasant Harper, who was sent to jail in Clayton charged with larceny, will be taken Friday to the State Reform School in Boonville.

At the age of 13 Pleasant ran away from his home in Arkansas and made his way to St. Louis. Too small to obtain employment he assumed the role of a servant girl and applied to Mrs. Kinkead in Kirkwood. She needed a little girl to assist around the house and Pleasant was engaged.

Shortly afterwards a valuable ring was stolen and Pleasant, who was then under the name of Lucinda Harper, was arrested and convicted of the theft.

Out of sympathy for the lad Mrs. Kinkead purchased an entire new outfit for him to be taken to the reformatory in.

TENNESSEE GIRL IS KIDNAPED

Wealthy Parents Fear That 15-Year-Old Daughter Is Being Held for Ransom.

Special to the Post-Dispatch.

MACKENZIE, Tenn., April 28.—The mysterious disappearance of Miss Hattie Weldon, daughter of J. W. Weldon of Hyndsver, Weakly County, is causing great excitement. It is feared that she has been kidnaped.

The girl is about 15 years old. Last Saturday evening she secured permission to spend the night with a friend. She never reached the friend's home. Her parents are wealthy.

No love affair could have been the cause, as she had no special young man friend. The foul play theory is not accepted, and the entire county believes that she was kidnaped and is being held for ransom by parties who know the financial standing of her father.

Her father left Tuesday for Arkansas on a clew, but he has not been heard from. The town has no railroad connection, the nearest town being Martin, Tenn., about 130 miles west of Nashville, near the Kentucky line.

BALANCE FOR STATE TREASURY

JEFFERSON City, Mo., April 28.—The total of appropriations made by the last General Assembly and approved by the governor is $19,245,968.03, according to figures compiled today in the state auditor's office. Of this amount $5,196,853.13 comes out of the general revenue fund and the balance from various other funds.

The revenue guaranteed for the next two years is about $20,000,000, so that there will be a small balance in the treasury when next the Legislature meets.

AMBULANCE NEEDED AFTER LOVE'S CALL

Brother of Girl Objects to Visits of Her Persistent Admirer.

FISTS BARRED HIS WAY

Knife Used Later and Both Are at the City Hospital.

William Cade of 906 Chouteau avenue, and Harry George of 1004 Chouteau avenue, are at the City Hospital as a result of a call which Cade made Thursday night on his sweetheart, Martha George.

Harry George is a brother of Martha. He does not approve of Cade and recently told him not to call. When he came Thursday evening there was a fight, but neither was hurt much.

Cade returned to his home. George followed him there and a more serious altercation ensued, in which Cade's brother, Arthur, took a hand.

Cade was cut in the left breast. His brother started with him to a doctors. At Seventh and Gratiot streets loss of blood caused him to sink to the pavement. Arthur dragged him into a saloon and called an ambulance.

Detectives Woodling and Fox, who were sent to the saloon, learned where the trouble had occurred, and went there. They found George lying on the floor of Cade's room, badly beaten about the head. Both were taken to the City Hospital in the same wagon.

George admits cutting Cade, but says he did it in self defense. Cade, whose condition is serious, will make no statement.

Martha George, Edward George and Mary White, all of 1004 Chouteau avenue, and Arthur Cade were arrested and held as witnesses.

A LITTLE TEN-YEAR-OLD GIRL PLAYS THE TANNHAUSER OVERTURE

One evening last week the writer visited the home of a friend in the West End and had the pleasure of hearing his little ten-year-old daughter play the wonderfully beautiful Tannhauser Overture with as much, if not more, expression than a finished musician, and without a mistake in fingering.

It was simply another one of the many proofs of our oft-repeated statements that a child may, with the aid of an Apollo Piano Player, perform the works of the greatest masters, as well and even better than the average musician.

The father says that since they bought their Apollo Piano Player his daughter has taken a much greater interest in her regular music lessons and has made great progress on account of allowing her to occasionally use the Apollo to "set the pace."

His wife, grown son and himself always use the Apollo, for they cannot play the piano by hand. It is one of the most cheerful, educated and refined homes in St. Louis, and so yours will be if you purchase an Apollo Piano Player and secure a free subscription to our large circulating library of music. We sell the Apollo Piano Player on easy payments.

WILD STEER CAUSE OF THEATER PANIC

Animal Breaks Loose in Madison Square Garden and Charges Into Crowds.

ZACH MULHALL IN EVIDENCE

He Commands Daughter to Capture Bovine, but Cowboys Get Ahead of Her.

By Leased Wire from the New York Bureau of the Post-Dispatch.

NEW YORK, April 28.—A Texas steer running loose among spectators at the horse show in Madison Square Garden last night caused great excitement for five minutes. That no one was hurt was due to the skill of the cowboys, who roped it and guided it back to the arena.

The steer came from Col. Mulhall's Oklahoma ranch, a dun-colored animal, weighing 800 pounds, with horns that spread 5 feet. It is a restive beast and resents its part in the roping exhibition given by Miss Lucille, the colonel's daughter.

The brute had been admitted from the pen and was urged to its highest speed by six shouting cowboys. It ran into the center of the ring and down toward the entrance at Madison avenue. As Miss Mulhall followed at top speed and the cowboys drew off, the steer leaped the bars protecting the steps on the Twenty-sixth street side.

There was a wild scamper of spectators out of the path, but it kept up the stairs without a mishap. At the top of the first flight Claude Flanagan, an usher, seized its horns and was thrown across several tiers of seats. Flanigan scrambled to his feet and grabbed the animal's tail just as several lassoes ensnared him.

The steer went up the second and third flights into the balcony and disappeared into the corridor back of the Madison avenue boxes. The six cowboys, lariats in hand, were following.

The Indian, Will Rogers, ran up the Twenty-seventh street side and headed the steer off. As it passed from the corridor again into view of the spectators he roped the steer's horns. Alone and afoot, he was no match for the brute's strength, but he rushed it down the steps, where it jumped again into the ring. Immediately the ropes of a dozen cowpunchers fell over it from all sides and it was brought down with a quick turn.

The regular exhibition was abandoned. During the excitement the Seventh Regiment band abandoned horns of various sizes and fled. Occupants of seats made a stampede for cover. Women screamed and men shouted.

While all this was going on Col. Mulhall shouted to his daughter in his excitement asking her why she did not "follow that baby up the stairs and bring him back or else stay there" herself.

DEATH TAKES WOMAN ARTIST AND HUNTER

Mrs. Waldo Briggs, Expert Horsewoman and Shot, Was Invalid for Long Time.

The body of Mrs. Nellie Gray Briggs, wife of Dr. Waldo Briggs of 4399 Forest Park boulevard, will be taken to Nashville, Tenn., Dr. Brigg's old home, Friday night for burial Sunday afternoon.

Mrs. Briggs, who died of cancer after a four years' illness at 10:15 o'clock Thursday night, was one of the best-known sportswomen in St. Louis. She was a horsewoman of exceptional skill, and in her stables were five beautiful thoroughbred saddlers and drivers. She was skillful as a rifle shot, and an enthusiastic hunter, and had two of the finest pointers in the city. She was an amateur photographer of exceptional ability, and has won several prizes for her work with the camera. She also had much skill as an artist, both in black and white and color.

Mrs. Briggs acquired her taste and skill in photography from her father, John C. Gray, who was for more than 20 years well known as a photographer in St. Louis. Her enthusiasm and skill as a huntswoman was acquired from her husband, whose fondness for the hunt and skill in the field and on the chase are well known. Mrs. Briggs accompanied him on many of his hunting expeditions, and her feats with shotgun and rifle frequently eclipsed his own efforts in that line.

For the past four years Mrs. Briggs had enjoyed little out-of-door life. In 1901 an internal cancer developed, and ill health, to which she had previously been a stranger, began. She gave up shooting, and only rarely could she enjoy riding or photographing expeditions. Two years ago she was taken to Nashville, where an operation for the removal of the cancerous growth was performed.

The operation gave only temporary relief, the cancerous growth returning and becoming more malignant. For several months she has been wholly an invalid.

Mrs. Briggs is survived by her husband and a son, Gray Briggs, a brother J. H. Gray of Centralia, Ill., her former home, and three sisters, Mrs. W. Irwin and Miss Winnie Gray of St. Louis and Miss Jessie Gray of Chicago.

The funeral Sunday will be from the home of Dr. Samuel S. Briggs, her husband's brother, in Nashville, and interment will be in the Briggs family lot in Mount Olive Cemetery.

Arrests Follow Smash-Up in Kentucky Highway.

Special to the Post-Dispatch.

FRANKFORT, Ky., April 28.—While racing in an automobile on the county road at the rate of 40 miles an hour, Robert Cochran too quickly turned his machine and sent it crashing into a telephone pole, splintering the machine and fatally injuring Lewis Combs, an employe of the Lexington postoffice, and seriously injuring James Doyle, registrar of the state land office, and rendering unconscious Ed Carnes.

William Muir and Cochran were arrested and fined for fast driving under the "speed limit automobile law."

MAN'S WORST FOE APATHY, SAYS OSLER

"Age Limiting" Professor Makes Farewell Address to Faculty Before Going Abroad.

Special to the Post-Dispatch.

BALTIMORE, April 28.—Dr. William Osler made his farewell address to the medical faculty of Maryland University late yesterday before leaving for his post as regius professor in the University of Oxford. The title of Dr. Osler's address was "Unity, Peace and Concord."

McCoy Hall of John Hopkins University was crowded with prominent physicians, some from a distance.

Among the striking sentences were the following:

"Like the church, the physician has three enemies, namely ignorance, which is the sin; apathy, which is the world, and vice, which is the devil. This wilful and helpless ignorance of people must be righted by the weapon of the tongue.

"The most dangerous foe is apathy. Thirty-five per cent of the deaths in a community is due to apathy, which goes to counterbalance the advance of medicine in the last century. What advantage is there in prosperity when the comforts of life are not enjoyed? What advantage has the little red schoolhouse when in many of the most important relations of life we have failed to make use of our knowledge? Against vice we have to wage incessant warfare, advising the young against the evils of impurity.

He did not say a word about the age limit of usefulness.

OPENING "DRY" FOR SUMMER GARDENS

First Day and All Other Sunday Visitors Must Do Without Drinks.

Excise Commissioner Mulvihill has informed the managers of summer gardens that they must not sell intoxicating liquors Sundays this summer, and consequently Forest Park Highlands, the first to open, will not supply its visitors Sunday with their usual drinks.

The gardens operate under the same license as the downtown saloons.

Some of the gardens are located in the country, and the enforcement of the law there will fall upon Sheriff Herpel.

LOCAL OPTION BILL KICKED TO PIECES

Illinois House Plays Havoc With Proposed Measure at Stormy Night Session.

Special to the Post-Dispatch.

SPRINGFIELD, Ill., April 28.—In a successful effort to kick the life out of the local option bill the Illinois House remained in session until after 1 o'clock this morning. With malice aforethought the opponents of the bill permitted its sponsors to call it up on second reading. Representative Brown then tore the bill to pieces in a speech and moved to strike out the enacting clause. This motion was defeated 51 to 83.

The next fight was upon an amendment which eliminated the county feature of the bill. Then followed a battle on the precinct feature and both were stricken out, together with the referendum clause. In its emasculated form it is doubtful if the Anti-Saloon League people will ever call it up on third reading.

The league's threat to make a fight in Illinois on the whole Republican party was utterly disregarded in the pre-arranged assassination of the measure, and it remains to be seen what results will follow. If the Senate refuses to concur in the changes, local option legislation will have again been defeated in Illinois.

MEN IN GRAY TO HONOR GRANT

Confederate Veterans Accept Invitation to March With G. A. R. on Memorial Day.

Special to the Post-Dispatch.

NEW YORK, April 28.—Four hundred Confederate veterans of the local camp, are to be guests of U. S. Grant post, G. A. R., Memorial Day, and the veterans of the two armies will make such a day of it as will convince the most hardened Bourbon that the war is over.

Senator Blackburn of Kentucky, himself a gallant Confederate soldier, is to deliver the oration at Grant's tomb. It will be the first time that Confederate veterans have marched with Union veterans in this city.

The U. S. Grant post two weeks ago voted unanimously to invite the Confederate camp to parade with the post and the invitation was accepted with a whoop.

BATTLE ON ENGINE IS FATAL TO NEGRO

Wild Fight While Going 40 Miles an Hour Follows Attempt to Steal Ride.

Special to the Post-Dispatch.

MONTGOMERY, Ala., April 28.—In a desperate fight in the cab of a locomotive, Engineer Will Reynolds overcame a negro tramp last night and threw him from the train, killing him as a result of the fall, just below Montgomery.

Reynolds looked ahead and saw a negro on the pilot. The negro entered the cab, presented a big revolver and declared he was going to ride to Montgomery.

The engineer had to fight with one hand and run his train with the other, going 40 miles an hour. The flagman and head brakeman, seeing the fight, ran to the cab and took a hand. After a struggle, in which the negro almost outdid his opponents, the revolver was taken from him. As soon as he discovered that his weapon was gone, the negro made a dash for the cab door, whence he was kicked to the ground by Engineer Reynolds.

St. Louis Making Rapid Strides Toward the Million Mark

The city directory for 1905 is out and reveals the pleasing fact that St. Louis is making a spirited effort to reach the million mark. According to the figures of the directory compilers we now have a population of 714,290. The new book contains 8,246 more names than last year, thus indicating an increase of 20,615 in the past twelve months. St. Louis is going rapidly and solidly forward, and the Model, the greatest and best store in the West devoted exclusively to the sale of Men's and Boys' Clothing, is keeping pace. Under no other roof can such immense quantities of high-grade apparel be found, in no other store can our values be duplicated. Here you will find modern methods, progressive ideas in practical use, a perfect store service, and the assurance of satisfaction on whatever you buy, or money back.

"Art System" Clothes

We call the attention of good dressers to our superb showing of "Art System" Clothes, the clothes that have gained the distinction of being the best made, best fitting and best wearing ready-to-put-on clothes in existence. They possess all the style and smart appearance that any custom tailor can put into a garment, and the cost is about half.

Biggest West of the Mississippi.

A cold-blooded banker may sometimes give his depositors a chill.

It is not a "harmless" Fourth of July cannon which has been invented. The noise remains.

Grover Cleveland did a very inconsiderate thing when he waked up Miss Susan B. Anthony.

Mr. Roosevelt is "the first in at every kill." If reincarnation is true, Nimrod is again getting in his work.

To the people who make puns the fact that one of them made a pun when he was buying the poison with which he destroyed himself should be a warning. There is no knowing to what fate a persistent punster may be brought.

Corporal punishment, except for teachers, may be abolished in Oklahoma, where a woman has horsewhipped a teacher acquitted of having too severely punished her bad boy. When the man undertook to defend himself the crowd shouted "Hang him!"

It is held by some that women, coming together and silently holding thought for distant persons, may greatly benefit them. And this seems reasonable. When any considerable number of women are silent there must be a wonderful change in vibrations.

THE REIGN OF LAW.

When President Roosevelt issued pension order No. 78, declaring that veterans who had reached the age of 62 were incapacitated (whether they were or not) and entitled to a pension, it was expressly provided that the order was not retroactive.

How, then, does it happen that $150,000 has been paid on retrospective claims.

The order itself is an exercise of legislative power by the executive for which no warrant can be produced. It is, in fact, an exercise of the dispensing power—a usurpation which cost the last Stuart King of England his crown. How such a power can be justified under our system of clearly defined duties and distribution of powers among the departments is a question that has not been answered.

But the payment of these back pensions is an abuse of an abuse. The President, by executive order, dispenses with the law. The subclerks in the pension office dispense with his dispensation by ignoring one of its limitations. Like master, like man.

"What is the constitution between friends?" shouted the Hon. Tim Campbell. "What is the law that it should stand between the incapacitated and the appropriation?" asks the President and his clerks. "The constructively incapacitated man is not incapacitated from voting."

Let it be granted that the veteran of 62 is entitled to the pension. He served his country faithfully and deserves well of the republic. But let the grant be by course of law, not by the arbitrary exercise of executive discretion.

We have not heard the last of those wonderful X-rays. Some of the St. Louis people whom you know, surrounded with characteristic colored rays, form an intertesting group on the first page of the Sunday Post-Dispatch Magazine. Here is the old saintly halo modernized. You can discover from this article what your aural color may be and what it means. Lovers of the mysterious in fiction will find this week's Sherlock Holmes story thoroughly satisfying. Then follows a charming love story—a romance of a young college couple whose names will be recognized by many readers. Churchmen and others will find the page on "A St. Louisan for 'Black Pope,'" full of historic, theologic and personal interest. Everyone should know who the "Black Pope" is. We have fought against the death-dealing grade crossing in St. Louis, but close to the city is a thickly populated section of country in which this form of death trap is extremely numerous. It is a public service to expose the condition here described, and a general reform should follow. St. Louis must be a jolly city, for it is the birthplace of the comic opera. A full page, beautifully illustrated, tells all about this. St. Louis has a reptile which is the oldest animal living. With the reverence due to age, he has a page devoted to him. He is a big fellow and wondrously strong. A page devoted to the children, a page of New and Strange Things, a colored page of the coming theater beauties, and many other informing, amusing and up-to-date articles and illustrations, make up a Magazine that will please every reader.

WHERE WILL THE LADY STOP?

The fact that the Illinois Central Railway Co. has employed a landscape gardener to go over the 7000 miles of its tracks in nine different states to beautify the station grounds along the route is interesting enough in itself, but when it is made known that this landscape artist is a woman the matter becomes positively fascinating.

A man could do all that she will be required under contract to do—lay out little parks, plant flowers and shrubs and raise small hills wherever advisable, to make even the barrenest of country stations attractive; it is the thought of what the woman may do aside from her legal promise that makes the potentialities of the case as engaging as a romance.

We are already informed that the lady will cover "all unsightly necessary buildings" with vines. We are not told that she will festoon all unsightly necessary freight cars with varicolored bunting, or that she will drape their greasy axles in dotted swiss or surah silk, or that all napkins in railroad eating houses will be perfumed with rosewater and all sandwiches served on pink plates, or that ticket sellers will be ordered to keep on their coats while serving the public, instead of going around with "garters" on their sleeves and a toothbrush sticking out of a vest pocket; we are not told that the lady will institute such changes as these; but, being a lady, is it not likely that she will?

The action of the House committee at Springfield, on Thursday, in ordering a favorable report on the free bridge measure is one more assuring sign that the long fight for the commercial emancipation of St. Louis is near a triumphant conclusion. The spectacle of a body of prominent citizens of our neighboring municipality protesting against unrestricted communication with the fourth city of the United States was more disappointing than mischievous. If the Mayor of Brooklyn a few years ago had taken a political coterie to Albany and demanded that the Brooklyn bridge be closed to the use of the people, all America would wonder. But the Mayor of Brooklyn did not do such a thing. It remained for the Mayor of East St. Louis to take this remarkable and unprecedented course in relation to a city's weal. The St. Louis committee of business men, through Mr. Elias Michael, offered a strong and convincing argument in favor of the bill and the free bridge—an argument that cannot be answered.

"THE CARNEGIE FOUNDATION."

Once more on sailing for Europe Andrew Carnegie has made a magnificent gift to the cause of education.

By his establishment of a $10,000,000 fund to provide retiring pensions for the teachers of universities, colleges and technical schools he duplicates his earlier gift to the Carnegie Institute at Washington. The purpose of the latter fund was to furnish men of learning with independent means to carry on original research. By this new benefaction Mr. Carnegie proposes that worthy teachers shall receive an independent income when the time comes for their withdrawal from active work.

The double end is served of making it possible for a professor to retire when the period of his greatest usefulness is past and to fill his place with a younger and more vigorous successor. To the colleges it insures the keeping of the teaching force at the highest pitch of efficiency. Instead of drudgery of old age because of necessity it means honorable and well-earned leisure.

As a class, college professors are poorly paid. Their profession involves a certain manner of living, a definite social standing, constant study and occasional travel. There is little opportunity for saving against old age and cessation of salary. In the last issue of Harper's Weekly, President Charles F. Thwing of Western Reserve University goes at length into the statistics of college salaries.

An instructor usually begins at $750 a year. After three years it may be increased to $1000. If promotion follows, the salary is usually increased, but usually six years would pass before the ordinary instructor would receive $1300. By this time the teacher is 30 years of age and probably married. The salary of the full professor in the richer colleges does not usually exceed $3000, and frequently is less. In not a few colleges of national fame $1500 to $1800 is the maximum. Harvard pays its full professors from $2000 to $6500 and the University of Chicago from $3000 to $7000, but the highest figures are reached by only two or three men in each case, after many years of distinguished achievement.

At Cornell the very highest salary is $4000, at the University of Pennsylvania $3000 and at Dartmouth $2500. These are very small incomes by comparison with those of successful lawyers and doctors.

It is right and proper that mere money-making should not be regarded as the chief end of a profession in which the community puts much the same trust as it does in the ministry. At least need should not be the termination of a faithful and responsible career. For his far-reaching philanthropy the public no less than colleges may well feel grateful to Mr. Carnegie. His new foundation enriches the public by insuring comfort to teachers of merit and opening the way for capable successors.

WHILE OTHERS ARE BUSY

NEW YORK NEWSPAPER VIEWS

This Morning's Comments on Today's News by the Leading Metropolitan Journals.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, April 28.—"The whole world is in trouble when I travel," the Kaiser is reported to have said when he read the French comments on his Mediterranean trip.

The World commenting on this, says: "Not necessarily when he travels, but when he talks—and he always talks when he travels. The Kaiser has real genius for starting what his greatest living contemporary, Theodore Roosevelt, would felicitously term 'the rough house.'"

"France is now this country's rival in silk manufacture," says the Tribune. "We make over 70 per cent of the silk we consume, whereas in 1880 we imported all but 13 per cent of our silk. Yet silk, like tin plate, could not be manufactured here, and yet a protective tariff was flying in the face of natural law."

An incident of Easter week was the defeat in the senate at Albany, Wednesday, of the latest effort to extend suffrage to women. The extension proposed was limited to voting on tax questions in twelve small cities only, but it was treated as an entering wedge for woman suffrage generally.

The Sun mentions this fact, tells of Mr. Cleveland's recent pessimistic article on women, reviews in detail the amazing progress of women in things social, civic, collegiate and otherwise and says: "Has the feminine character suffered deterioration as a consequence of all this? Is 'the home' impaired? For one thing, the popularity of matrimony, at least, has not diminished. Never was there an Easter season when marriages were so many as they are now. Men seem to fall in love with the 'new woman' not less than they did with the old. Physically the new woman is indubitably better than the old. She is taller, and stronger and in every way is increasing in attractiveness.

"So far, then, there seems to be no reason for alarm lest 'the saving grace of simple and unadulterated womanhood' shall be lost for that broader life of woman which will have an 'undermining effect on the wives and mothers of our land.'

"Even if the 'movement' on which Mr. Cleveland looks with so much misgiving should go to the extreme of complete woman suffrage, that dreadful consequence would not come. So long as the human race exists, 'the saving grace of simple and unadulterated woman' would be preserved—would be safe against any movements of man or woman either, which may be made. Romance will always remain and woman will be its high priestess."

The American does not "Look the gift horse in the mouth" and question his motives, but instead it praises Mr. Carnegie's great generosity in coming to the aid of aged college professors. However, it adds: "But we may well ask what effect this princely sum will have upon democracy in college education, and upon the principle of academic freedom—already often in serious jeopardy.

"With few exceptions, our colleges are centers of political and social reaction, and the exceptions are, in the main, state universities which Mr. Carnegie expressly bars from sharing in his gift. The colleges most to be benefited are those which are supported in the main by contributions from exceedingly rich men, graduates or otherwise.

"Fifteen or twenty years ago the colleges were to some extent leaders in anti-monopoly agitation; today they are silent, or at most discuss the question only in a staid and ineffective academic way. Occasionally a teacher has broken away from the domination of trustees seeking more endowments. When that has happened he has usually been quickly, but firmly, ejected from his job.

"We would ask anyone familiar with the present social movement in the United States to read over the list of trustees of the Carnegie fund and ask himself what chance a radical thinker and teacher in American colleges will ever have to share in that golden shower."

LETTERS FROM THE PEOPLE.

Letters on all matters of public interest not exceeding 100 words, will be printed in this department. To insure publication be brief. Most suggestions, complaints, etc., can be written in much less than the 100-word limit. "Boil it down."

"Reform, Not Revolution."

To the Editor of the Post-Dispatch.

Allow me to congratulate you upon your article, "Reform, Not Revolution," published April 25. The words, "We need and want reform in the making and administration of the laws," ought to be the watchwords of the party of "common sense," which daily grows larger.

CHARLES J. STOCKING.

Kompner's Sentence.

To the Editor of the Post-Dispatch.

Here is a case for reformers. Emil Kempner forged a note for $5; he was sentenced for five years to the penitentiary—a year for each dollar. It was his first offense. The punishment is too severe. His associates for the next three years and nine months (with good behavior allowance) will teach him too much about crime. Reduce his sentence by all means and save him.

JUSTICE.

Mail Coats for Detectives.

To the Editor of the Post-Dispatch.

The recent tragic death of Detective Frese recalls the incident in which three of these noble men met untimely death in the pursuit of their duty. It is possible that a man would be looked down upon should he emulate the example of "The Knights of Old" by donning a coat of mail. Had this precaution been taken the three men who met their death in the attempt to capture the Morris gang might have been alive today. When an officer of the law is called upon to perform a duty which takes him into the yawning jaws of death it seems that it would be advisable for him to seek such protection. Why not adopt the mail coat for the detective and the policeman, especially when they are assigned a case where the chances are so greatly against them.

MRS. E. H. WHEELER.

Teachers' Salaries.

To the Editor of the Post-Dispatch.

Will the board of education explain why teachers in the fifth to eighth grades are not paid more salary than the lower grades, for every one knows they bear the brunt of school work?

Not only the course of study but the discipline is more exacting. Boys and girls in these grades require the strongest and most responsible teachers, which ought to be recognized by increase of salary. The foundation for future business life are here formed. Here the difficult parts of arithmetic, grammar, physical geography, etc., are taught. Why not recognize and pay what they earn, as more is required of them.

JUSTICE.

Water Hyacinths.

To the Editor of the Post-Dispatch.

Could some kind reader please tell me if the water for the "water hyacinths" is changed, if so how often? R. S. V. P.

It is not necessary to change the water for these plants. They flourish all summer in the ponds at Tower Grove Park.

What Makes the Fire Burn?

Written for the Post-Dispatch.

"SONNY," said papa, one night, to the little boy, "Why don't you ask me what makes the fire burn? You have asked me about several things and I have tried to explain them. Fire seems to me the most wonderful of common things."

"But, papa," said the little boy, "I don't want to ask any old questions tonight. Tell me a story—a fairy story.

"I'm not good at stories," replied papa, "but I'll try."

"There was once a powerful fairy, whose name was Oxygen. She lived in a world where it was all dark and cold, and she longed for light and warmth.

"She tried all kinds of magic spells, waving her wand and muttering strange words, but all to no purpose. And she grew more and more discontented and hopeless.

"One day—though it seems odd to call it one day where there was neither day or night—she seemed to hear a whisper, and it said: 'What you need is Love. If you will love this cold, dark, sad world in which you find yourself, you will make it new and different.

"So, instead of moping and waving her wand and muttering queer old spells, the fairy Oxygen began to look around for objects she could love. And she found them on all sides.

"And wherever the powerful fairy found something to love, there light and heat sprang forth. And the people soon had warmth and joy."

"Do you mean to say, papa, that it is love which makes fire burn?"

"Well, the chemists and wise men do not call it love. They call it affinity, but it is the same thing. Oxygen has the most widespread affinity or liking for other things in nature. It is always uniting with some other substance, and in doing so causes light and heat. The oxygen in the air uniting with the substance of the coal, or of the candle or oil in the lamp, makes heat and light. It is indeed a powerful fairy. But if it had no affinity, or love for other things, its power would not do us any good.

"There are other ways in which we can obtain heat and light, without oxygen, of which I may tell you later. But they are of small consequence compared with oxygen. It has lighted and warmed all the homes of the world for countless ages. It is the most useful and splendid fairy in the realms of nature.

A MOMENT'S MERRIMENT

Sure Signs.

Mrs. Jones: Did you really expect me to accept you the night you proposed?

Mr. Jones: Yes, love. Just before I got to your house I heard a dog howl three times, saw the moon over my left shoulder and walked under a ladder.—Judge.

Quite Likely.

"I suppose," said Mrs. Gabbie, whose husband had been dead only a few weeks, "if I should go to that five o'clock tea it would cause a lot of talk."

"Naturally," replied Miss Peppery, "unless you should happen to lose your voice."—Catholic Standard.

Reflections of a Bachelor.

No minister is as black as he dresses himself.

The pleasure about getting out of debt is you can then get in again.

Either a woman is too cold without furs or she is too warm when she is dressed all in open work.

A woman admires her husband if he refuses to wear dandified clothes, but it makes her pretty mad just the same.

Generally a man has some news to break to his wife about a hunting trip he is planning when he will go to church with her without fighting about it.—New York Press.

Discouraging to Piety.

Deacon Jones: What do you think of the proposition that women remove their hats in church?

Rev. Mr. Wyse: Think of it? Why, it is the most absurd thing I ever heard of! What do they think the women come to church for, anyway?—Boston Transcript.

EXIT OF THE NEW WOMAN?

St. Louis Stenographers Defend Themselves Against Various Charges.

In reply to the page article entitled "Exit of the New Woman," in Sunday's Post-Dispatch, we, female stenographers of a prominent wholesale house of this city, feel, in all justice to ourselves and sister stenographers, that we should not ignore the article, as was our first intention, but that we bring to light some conditions in our business life that the editor evidently overlooked.

Women Have Adaptability.

The first charge brought against the female stenographers was that they lacked adaptability. On whose faces are the deeper furrows in every walk of life? On man's. Why? He is seldom satisfied. Woman, since long before the landing of the pilgrims, worked hand in hand with their brothers. In the early days of colonization who worked shoulder to shoulder with our true-hearted forefathers? The brave, strong woman. Who has faced the cannon in battle, when she saw she was needed there, more stanchly than our great-great-grandmothers. Ah! the woman adapted herself to that place, and who, in the face of this and still stronger evidence, can say that woman cannot adapt herself to any station in life and make purer and truer the community in which she exists. Why should she not be then able to discharge with credit the duties assigned her by her employer? We claim she is doing so in the twentieth century.

Women Do Not Shirk.

The writer of last Sunday's article said that a woman was either a shirk or a drudge. Did anyone ever say, "My stenographer is working herself to death? It is a pitiful sight to see her calmly sit working her life away." No, he says, "I have a faithful helper, who takes my interest to heart and is always at her post." We honor the man who admits this fact. If a female stenographer should lose her life "pitifully" pounding her "aspirations," who would lose? Her employer? No, he would have reaped a rich harvest for the money he had invested for her labor, and when she was gone another one of her willing sisters would be ready to step in her place. Where a woman is usually limited to from one-half to one hour for luncheon, a man takes all the way from one to three hours (not all consumed in eating luncheon, however) but the "necessary recreations, such as smoking a cigar, baseball, billiards and pool take up about two-thirds of that time, and when they eventually reach their desks their minds are so filled with the sports of the day it takes them another hour to get down to business. There are days in the year when the male stenographer is, in order to live up to his standard as a true citizen of the country, compelled to be absent from his office. For this we do not condemn him, rather admire, but can the correspondence on these particular days be set aside?

Why Women Are Not Advanced.

The success of a business house depends largely upon the appearance of the correspondence sent out by them, which fact will be conceded by all first-class business men, and where the male stenographer's mind is constantly overwhelmed with thoughts of other positions, which to him are more important than his employer's welfare, it is an undisputed fact that he does not give the required attention to the appearance and accuracy of his letters. Women are debarred from the field from the mere fact that they are women; the world is always more lenient toward men than women, but the great and noble women who have been given the opportunity to proceed to the front stand there today firm and undaunted, showing what women can do and will do. One of the reasons she is not advanced is because her employer fears that she will show her capability in a way that will win for her the laurels which he is reluctant to give to the deserving party.

"Tears, Idle Tears!"

As to the employer handling the female stenographer with kid gloves in order to keep back the tears, let us say now that the real business woman will not give way to tears on account of some misunderstanding at the office—nay, she will not swear either, but will quietly and earnestly devise some means by which to overcome this difficulty, and no tears need be shed or harsh words spoken.

They speak of a male stenographer writing letters without dictation as though no female stenographer was capable of doing so. Why, the remark is too preposterous to be commented upon by sensible stenographers.

Women Are Patient.

Perhaps a greater amount of patience is required in the life of a stenographer than in any other line of work. Woman is more patient than her brother. For this he cannot be condemned, rather pitied, for if he, in his sojourn in the field as a stenographer, will meet with the same obstacles that we have met with he will need pounds of patience, which he will either have to acquire or lack, and if lacking we pity his lot.

And as to our employer's comfort, will say that we would not consider it a discourtesy were our employer to remove his coat; in fact, have often suggested it to him when the day was extremely warm. We do not think the rules of propriety should conflict with those of common sense, especially where one's comfort is concerned.

He is a lucky man who has a female stenographer to keep his desk nicely dusted, his papers in perfect order, so he can lay his hand on anything he may need in a hurry, who will run for a pen point, a block of paper, a stamp, or any of the innumerable articles that a busy man has no time to look for. A male stenographer would consider it beneath his dignity to perform such tasks.

Stenographers Make Good Wives.

Being a stenographer many years does not in the least detract from our virtues as wives and mothers. How many a business man chooses for his life companion his one-time stenographer. Why? Has he not seen in her the womanly qualities that made his business a pleasure as well as a success? Has he not seen her ever ready and willing to cheer her fellow-worker, be they male or female, and does he not know that she will strive harder to please and make happy those whom she loves? To such a woman the keeping of a home will be the inspiration for a new campaign.

MILLIONS OF PEOPLE

ARE DRAGGING OUT A TIRED, WEARY EXISTENCE.

Say Druggists Wolff-Wilson Drug Co. Simply for the Want of a Little Strength and Vitality.

"Simply for the want of a little strength and vitality," said Mr. Wolff of Wolff-Wilson Drug Co., there are millions of people in this world, and a large number right here in St. Louis, who are dragging themselves around half dead and half alive, and it hardly seems to them that life is worth living.

"I want to say to every such person, take Vinol, our delicious cod liver oil preparation, which is not a patent medicine, and you know what you are taking, as everything it contains is printed on the bottle.

"Vinol contains in a highly concentrated form all of the curative, life-giving elements of cod liver oil, without a drop of oil or grease to upset the stomach. Vinol will purify and enrich the blood, invigorate every organ in the body and create strength as nothing else known to medicine can do.

"Mr. M. A. Cassidy, a prominent educator and Supt. of Schools, Lexington, Ky., writes, 'After using different tonics and cod-liver oil preparations on the market, I find Vinol to be far superior to them all, and its strengthening properties are truly remarkable.

"'Vinol has built up my system, strengthened my nerves—in fact, it has made a new man of me, enabling me to take up my work with renewed energy and vigor, and I heartily endorse Vinol as the best cod liver oil preparation and strength creator known.'

"We ask every weak or aged person in St. Louis, every person who is run down, overworked, nervous or debilitated, and every one suffering from severe colds, hanging-on coughs and incipient consumption, to try Vinol on our guarantee to build them up and create strength and make life worth living. Vinol will cost nothing if it fails to give satisfaction; in such cases we give back the money without 'red tape.'" Wolff-Wilson Drug Co., Druggists.

WILES AND GUILES OF WOMEN.

Devotion is the last love of women.

A little widow is a dangerous thing.

The best woman is the one least talked about.

Woman is seldom merciful to a man who is timid.

One must tell women only what one wants to be known.

A coquette is a female general who builds her fame on her advances.

Tell a married woman that she is a martyr and she will be supremely happy.

'Tis the greatest misfortune in nature for a woman to want a confidant.

A woman seems to be afraid of nearly everything in this world except the man she is married to.

Women of 40 always fancy they have found the fountain of youth, and that they remain young in the midst of the ruins of their day.

JUST A MINUTE — FOR Post-Dispatch Verse and... Humor

A Four-Leaf Clover.

"Ah, here's a four-leaf clover!"
The lovely Phyllis cried,
As bending quickly over,
She plucked it at her side.
"The first one of the season—
The very first of spring—
And now by every reason,
Good fortune it should bring!"

Good fortune? Ay, and truly,
It was an omen bright:
That four-leaf, found but newly,
Brought fortune ere the night;
And I, remembering blisses
As deep as bliss can be,
Know—how delightful this is!—
The fortune was for me.

English Undefiled.

The simplicity, directness and force of the Anglo-Saxon tongue, which made Shakspeare and John Bunyan immortal, is nowhere more forcibly illustrated than in the work of a humble newspaper correspondent at Humble, Tex. He had a story to tell of a local tragedy, and he told it in the following words:

> Foster Rosenberg, also known here as Ralph Scott, started out this morning to kill Gov Minnis, an oil well driller. He was slow on the draw, and Minnis shot him through the head, killing him instantly.

What simplicity! What directness! What force! No straining for effect; no elongated sentences; no glowing bits of description; no "it is alleged;" no explanation of "slow on the draw;" not a single adjective; not one polysyllable. Here is the whole story of a life and death told in 36 words; and of these 36 words 26 are words of one syllable—the real old Anglo-Saxon stuff, drawn from the "well of English undefiled." Instinctively the mind turns to Bret Harte:

I reside at Table Mountain, and my name is
Truthful James;
I am not up to small deceit nor any sinful
games;
And I'll tell in simple language what I know
about the row
That broke up our society upon the Stanislow.

Great is the humble and monosyllabic correspondent of Humble, Texas!

Something Gained.

The man who dreams of wealth and fame,
May fail of riches and of name;
Yet he is greater, it would seem,
Than one who never sought to rise
Above the level of his eyes;
For he, at least, has had his dream.

YOUNG WIVES, OLD HUSBANDS.

"Strange statistics," said an insurance agent, "are collected in my business.

"I have found that the more times a man married the younger in comparison with himself he wants his wife to be. For instance, his first wife on the average is four years younger than he. His second is 10. His third is 20 or 30.

"What do these statistics prove? Do they prove that as a man gains in years and experience he finds that it is best for many reasons to be almost as old as his wife's father, or do they only prove that as men approach old age they are more foolish than they were in youth?

"Old X., aged 70, with a third wife of 23, said on this head the other day:

"'You can't marry a girl too young. The younger she is the longer she'll keep her health and strength and beauty. Furthermore, the older you are the more respect she'll have for you. She'll reverence you and obey you as she would her own father or grandfather.'

"Young wives rejuvenate old husbands," the insurance agent ended. "They make these old fellows dress younger. Youth is contagious, like the croup.

"A young wife is believed to prolong an old husband's life. If a man of 70 insured in my company should marry a girl of 20 I'd consider him a better risk by 8 per cent than he had been before."—Philadelphia Bulletin.

Why She Wept.

"But, my dear," protests the young husband, "you have paid $56 for this Easter bonnet, when I asked you not to exceed $25."

"Yes, love," she explains; "but, don't you see, the $56 one was marked down from $72 and the $25 ones were only marked down from $30. I saved $16, instead of only $5. You ought to commend me instead of—boo-hoo!—of—of scolding me."—Judge.

CLEVELAND, O., April 28.—Manager "Jimmy" McAleer, who made his debut in baseball right here in Cleveland, arrived this morning with 14 members of the Browns, ready to do two days battle with the "Chicagoed" Naps. McAleer is not too optimistic about the Browns' chances against Lajoie's larrupers on this trip, for his pitching staff is not in the best of condition. Sudhoff is suffering from a bad arm, while Harry Howell was left at home to pitch against Cleveland Sunday.

The Clevelands returned this morning from their shut-out western trip. Seven games were played on the trip, six of them resulting in shut-outs, the Browns being the only team that broke the spell one day, when they scored one run on Cleveland when the Naps won the opening game. Manager Lajoie expects results with the long stay at home and believes that the losing streak is over.

Owing to the fact that the original opening game in Cleveland was hampered by cold wather on April 15, it is practically the season's opening this afternoon. It is an ideal day.

All morning the weather was threatening, but it cleared up at noon and it is the first good baseball day that Cleveland has had at home this season. There was a band concert at League Park for an hour before the start of the game. Mayor Johnson and the members of the City Council attended the game in a body. The fans were happy when it was known that Howell would not pitch.

Manager McAleer announced that his battery would be Morgan and Weaver, while Lajoie at noon believed that he would use Moore and Bemis in the points.

TWIN SULLIVAN BEAT CONCORAN

Special to the Post-Dispatch.

PORTLAND, Me., April 28.—Mike "Twin" Sullivan of Boston defeated Tommy Corcoran of Philadelphia in the fourth round of what was to have been a 12-round bout at the Auditorium last evening. The attendance was large. For the first three rounds the work of the men was even, although Corcoran was the more aggressive. In the fourth it was a case of give and take. Sullivan suddenly sent a wicked straight punch to the solar plexus and the Philadelphian went down and out.

Dan Dougherty and young Flavin of Boston were to have boxed six rounds, but they faked so constantly that Referee Johnny Sullivan stopped them in the fifth.

COL. BAKER IS ON ROAD TO RECOVERY

Col. Hugh R. Baker, the well-known turfman, who has been confined to his home for the past 10 days with a severe attack of gastro-intest'nal inflammation is now out of danger and will be on his feet again within two weeks unless a relapse occurs.

This information regarding the veteran horseman's condition was furnished by Dr. Holscher, his physician. Dr. Kier, who has been associated with Dr. Holscher in the case, also expects him to recover.

Col. Baker is one of the best known characters on the western turf. He has trained thoroughbreds for Edward Corrigan, Barney Schreiber and the late Charles C. Maffitt of St. Louis. Since Mr. Maffitt's death Col. Baker has raced a stable of his own.

GOOD BOUTS FOR SATURDAY NIGHT

The Missouri Athletic Club will hold an amateur boxing tournament Saturday night. "Brooklyn" Tommy Sullivan, the boxing instructor of the club, has announced that there will be contests in the 105, 125, 140 and 155 pound classes.

The following are the entries: 105-pound class, Branoonier and Howell; 125-pound class, Law and Williams; 140-pound class, Gray and Fierce and William Burke and W. A. Jones in the 155-pound division. The officials of the meet will be: Referee, Frank Fauntleroy; judges, W. A. Bean and L. W. Connelly.

An exhibiton bout in wrestling is also announced with Fred Doerr and George Baptiste as the contestants.

Cardinals Have Good Man in Arndt Says Bancroft

Frank Bancroft, the secretary of the Cincinnati Baseball Club, the right-hand man and confidant of August Hermann, the president of the national commission, and the former manager of the great Providence team, was asked for his opinion of Harry Arndt, the Louisville lad who will probably play second base for the Cardinals Friday in the game with the Cincinnati Reds.

"Harry Arndt was with our club at Jacksonville in the spring training, and is a very capable player. He would have made the team if it were not for the fact that we are well supplied with infielders in Bridwell, Harry Steinfeldt, Corcoran and Huggins, all stars of the diamond. Arndt is a very good batter, an excellent fielder and a fair base runner. We needed his services badly in the latter part of the campaign of 1904, but the lad, who was then with Louisville, was complaining of his arm. At Jacksonville he did not work out all there was in him. I could readily see that, and for that very reason I credit him with having a clever head.

Most of the youngsters that are tried out for the first time will work themselves to death, figuring, of course, that they must go at their highest speed to make the position they are striving for. The older men who have been through the game, will loaf around and watch the youngsters work, but they are careful not to overdo the thing themselves. This accounts in a great degree for so many exploded "phenoms."

WORTH NOT TO HOLD A RACE MEETING

Special to the Post-Dispatch.

CHICAGO, April 28.—The indications are that there will be no racing in Chicago or Cook County this season. Directors of the Worth Jockey Club have sent out notice that they will not race in opposition to the state authorities. Many owners racing in the South were notified not to ship their horses to Worth. The meeting was to have opened Saturday. State's Attorney Healy has issued this statement:

"I not only will prosecute such persons as may be guilty of the offense of gambling at racetracks, but I will exert every legal power conferred upon me by law to suppress and effectually prevent a continuation of the offenses mentioned.

"I propose vigorously and continuously to prosecute every person who commits, aids, abets or connives in any way in the commission of such offenses."

John Condon has a track at Forsythe, and a track is building at Hammond, Ind. These are beyond Healy's jurisdiction.

A HOPELESS FIGHT

It is as impossible to conquer the king of diseases—Contagious Blood Poison—with Mercury and Potash as it would be to conquer the king of the forest in a hand-to-hand encounter, as thousands who have had their health ruined and lives blighted through the use of these minerals will testify. They took the treatment faithfully, only to find when it was left off, the disease returned with more power, combined with the awful effects of these minerals, such as mercurial rheumatism, necrosis of the bones, salivation, inflammation of the stomach and bowels, etc. When the virus of Contagious Blood Poison enters the blood it quickly contaminates every drop of that vital fluid, and every muscle, nerve, tissue and bone becomes affected, and soon the foul symptoms of sore mouth and throat, copper-colored blotches, falling hair and eyebrows, swollen glands, sores, etc., make their appearance. Mercury and Potash can only cover up these evidences for awhile; they cannot cure the disease. S. S. S. has for many years been recognized as a specific for Contagious Blood Poison—a perfect antidote for the deadly virus that is so far-reaching in its effects on the system. S. S. S. does not hide or mask the disease, but so thoroughly and completely cures it that no signs are ever seen again. S. S. S. while eradicating the poison of the disease will drive out any effects of harmful mineral treatment. A reward of $1,000.00 is offered for proof that S. S. S. contains a mineral ingredient of any kind. Treatise with instructions for home treatment and any advice wished, without charge.

HE TAKES WIFE BY TELEGRAPH

Army Man About to Depart for Philippines Wedded to Woman 3000 Miles Away.

Special to the Post-Dispatch.

BOWLING GREEN, Ky., April 28.—Mary G. Slaughter of this city and James G. Murrell of Fort McKenzie, Wyo., were married last night by telegraph. The bride, attired in the usual veil and white wedding dress and accompanied by a number of friends, was at the Bowling Green end of the line and answered the usual questions. A minister was at each end of the line.

The telegram uniting the happy pair cost only $2.70. This is the second couple Manager Causey of the Western Union has recently assisted in marrying when the bride and groom were separated by several thousand miles.

Murrell is post quartermaster sergeant at Fort MacKenzie. His regiment will leave in a few days for the Phillipine Islands. He desired his bride should come to the fort and be married, but she preferred the ceremony be performed before starting. The woman will accompany her husband to the Phillipines.

SOCIETY WOMEN CONTEST OVER NAME

West End Organization's Right to Use "Young Women's Christian Association" Disputed.

WILL COMPETE IN COURT

"St. Louis Women's" Complaint Met by Mrs. Selden P. Spencer as Champion of Sisters.

The value of a name is the point at issue between two St. Louis organizations, which have for their purpose beneficiary assistance to young women.

Each organization wants the name of Young Women's Christian Association, and both have gone into the courts in a contest over it. One of the contestants is the St. Louis Women's Christian Association, which has been established for a score of years, and which has an auxiliary organization known as the Young Women's Christian Association.

The other contestant has as yet no corporate existence, but last Monday its organizers, representing some of the wealthiest and most prominent church and society women in the West End, asked for incorporation under the name of the Young Women's Christian Association.

The older organization, as told in late editions of Thursday's Post-Dispatch, filed a bill of exceptions, setting forth that if the court granted a pro forma decree of incorporation to the new association under the name sought, confusion would result. The newer organization, it was said Friday, will contest for the name, and Judge Selden P. Spencer, whose wife is one of the prominent members of the organization, has charge of the case.

The ladies of each association say they have no objection to the existence or the work of the other; but each claims a right to the name.

Mrs. Olive Brookes Williams of 4429 West Pine boulevard is president of the new organization, and Miss Edith Eustice Souther of 5118 Westminster place is secretary. Both Mrs. Williams and Miss Souther are now in Detroit, atending a meeting of the Woman's Christian Association of America.

Mrs Spencer of 4457 Washington avenue, who has been prominent in the work of organizing, said Friday that the purposes of the new association were to bestow upon women the same benefits as are bestowed upon men by the Young Men's Christian Association. She said the new organization was modeled as closely as possible after the lines of the Y. M. C. A., and that it was proposed to follow the same course of work.

The newer organization does not propose to provide homes or direct financial assistance for young women, except as this work may be incident to the other work. Its main idea is the establishment of an association house, with clubroom, library, gymnasium, educational and entertainment advantages. Night schools for the teaching of common school and business courses will be provided for such young women as care to take advantage of them, on the same plans as are employed by the Y. M. C. A.

Mrs. Spencer said no selection of a site for an association building had as yet been made, and no building fund would be provided until after the association had been formally organized.

Lack of money should not be a barrier to the new organization, no matter how elaborate its plans may be. Several of the women who have been active in the work of organization are quite wealthy.

Nw Organization Members.

In the list of names of women who are interested in the new organization, as given by Mrs. Spencer are, in addition to Mrs. Williams and Miss Souther, Mrs. Edward Robert of 4140 Lindell boulevard, Mrs. L. F. Mitchell of 3427 West Belle place, Mrs. Meade C. Williams of 3945 Delmar boulevard, Mrs. J. L. Van Ornum, wife of Prof. Van Ornum of Washington University; Mrs. James F. McCluney of 4437 Westminster place, Mrs. Dwight Tredway of 5142 Washington boulevard, Mrs. George Coxhead, wife of the secretary of Central Y. M. C. A., of 5447 Vernon avenue; Miss Emma Long of 4444 Delmar boulevard, Mrs. J. J. Fisher of 3423 Washington avenue, Mrs. William A. Porter of 3886 Washington boulevard, Miss Lillian Truesdale, treasurer of the new organization, of 4419 McPherson avenue; Miss Daisy Ferris of Lewis place, Miss Elizabeth Allen of 4140 Lindell boulevard, and Mrs. Sale of 4435 West Pine boulevard.

Mrs. Caroline R. Springer of 1611 Semple avenue is president of the older organization. Mrs. John D. Vincil of 3756 Cook avenue is secretary. Two of the vice-presidents are Mrs. George D. Bernard, who lives at the Washington Hotel, and Mrs. Wallace W. Culver.

Mrs. Springer said, Friday, the only objection the older order had to the new one was its desire to use the name "Young Women's Christian Association." She said the use of that name would result in great confusion and would operate against the success of both orders. She said a similar case arose in Chicago a few years ago and the older organization won its point after taking the case to the Supreme court.

HE USED ICE-CREAM FREEZER

Louis Miller, aged 52, of 4214 Arsenal street was fined $50 and costs in the Wyoming Street Police Court Friday morning for throwing an ice cream freezer at his wife's head, inflicting painful injuries, Thursday night, and in defense he testified that she has shot at him 12 times within the last three weeks, and that the walls of their home are riddled with bullets.

Miller, who keeps an ice cream parlor opposite the south gate of Tower Grove Park, took some friends home with him Thursday evening, and asked his wife, Albertina, aged 35, to serve refreshments. A quarrel followed, and it terminated in Miller's hurling an ice cream freezer at his wife, the machine striking her on the head and causing a wound that required seven or eight stitches for its closing.

Missouri Historical Society to Insure Safety for Records.

Under resolution adopted Thursday night by the Missouri Historical Society, the president will prepare a form of declaration of trust whereby the society can deed its property and records to the state.

By turning over the building and other property to the state, it is said, a greater degree of safety is insured for the records and exhibits.

REAL ESTATE FOR SALE.

WHEN YOU BUY A HOMESITE

Location is the chief requirement. You want to live in a healthy district, where the natural advantages and improvements are the best. And you want a first-class neighborhood, too, where property values are advancing. **There is no better location in St. Louis for a Home than**

Tower Grove Heights

This property is situated east and west of Grand avenue, overlooking beautiful Tower Grove Park; one of the highest and healthiest points in the city.

All street improvements, embracing sidewalks, sewers, gas and water pipes, are complete and paid for, and the work done under city supervision, guaranteeing its permanency.

You can reach Tower Grove Heights by three car lines in 25 minutes' time from the downtown district.

The lots vary in size from 30 to 50 feet front, and we are still selling them at the same bargain prices—from $27.50 to $50.00 per foot.

Ground in West St. Louis, with incomplete street improvements, is selling at THREE TIMES THE PRICE we are asking for lots in Tower Grove Heights. That's the secret of our phenomenal success in this subdivison.

Our terms are very reasonable, requiring only 1-5 cash, and you have 4 years' time to pay the balance. You don't have to be rich!

OUR BRANCH OFFICE ON THE GROUND, GRAND AND ARSENAL. Open all day, every day and Sunday. Plenty of salesmen to attend to your wants.

POST-DISPATCH'S COMPLETE DAILY RECORD OF DOINGS IN MARKETS AND FINANCE

WALL STREET MARKET HIGHLY IRREGULAR

Liquidation of Special Stocks in the Late Trading Overcomes the Earlier Gains, and the Close Is Active and Unsettled at the Reaction.

Special to the Post-Dispatch.

NEW YORK, April 28.—Stocks on Wall street this morning showed small recoveries from the closing prices of yesterday. Trading was exceedingly active, heavy blocks of stock being taken in the leading issues in the first five minutes of the session.

Americans in London before the local opening were ⅜ to ⅝ higher, supposedly on short covering from this side. Consols are slightly lower and Europe is still uneasy over the Paris settlement which begins Saturday.

Sentiment on Wall street is slightly improved owing to the nonconfirmation of any of the rumors of financial troubles circulated in the street yesterday while the market was declining and to the belief that the decline of the past few days has been sufficient to place stock values at a level where prices can readily adjust themselves to the present market conditions.

* * *

The higher opening helped by buying earlier did not dissuade sellers from unloading in great volume and a threatening slump followed. Vigorous support rallied the market, but this did not quiet the feverish tone at once. On the break such declines were indicated as 6 points in Northwestern, 4¼ in Central Railroad of New Jersey, 4 in Colorado Fuel, 2¾ in Republic Steel preferred, 2 in Atlantic Coast Line and American Car and Pressed Steel Car preferred, while L. & N., Union Pacific, Chesapeake & Ohio, U. S. Steel preferred, Tennessee Coal, Locomotive, Sloss-Sheffield Steel, Amalgamated Copper, General Electric and some others suffered to the extent of 1⅜ to 2⅜. The rebound carried Union Pacific and Illinois Central 1⅝ over last night and more than made up some of the principal losses. Northern Pacific rose 2½ and Great Northern preferred 1¾. There was a pause to take breath after the precipitate decline had been arrested.

* * *

The resignation of George Gould from the executive committee of the Union Pacific while causing some adverse comment in the street was not taken to indicate that friction exists between the Harriman and Gould interests. It is pointed out that Mr. Gould being prominent in the Western Pacific Railroad, which is in direct competition with the Union Pacific, could not afford to continue to be prominent in the affairs of the Union Pacific. Some well-posted authorities, however, contend that the resignation at this time is only another indication that the same interests that are in contention with Gould as regarding the Carnegie contract of the United States Steel Corporation have again been instrumental in bringing about the resignation and that all is not as it seems between the leading railroad magnates of the country.

* * *

Commission houses and houses with foreign connections were heavy sellers of the general list in the early trading and this pressure was largely responsible for the irregular appearance of the market after the opening advance. Chicago houses were moderate purchasers on the decline and the indications are that the liquidation from that center forced by the collapse of the May wheat deal is practically concluded.

* * *

Trading continued active and prices steady until well into the late session, when selling of a liquidating character again developed and prices were carried downward again to near the low figures of the morning's raid. The strike situation in Chicago and liquidation in special securities, especially the Gould shares, were responsible for the late decline. The calling by the banks for additional collateral from some of the pools operating in the highly inflated industrial only added the selling pressure and in the face of non-support the market became more vulnerable. A minor rally at last checked the decline and the close was feverish and irregular.

"ROSE" OF UNION MARKET WEDS

Girl Who Sells Broilers Marries Proprietor of Stall 77, and There's Rejoicing.

There was joy at Union Market Friday morning when the smiling face of "Miss Rosie" was seen again among the broilers at stand 77. It was not as Miss Rosie that she reappeared after a day's absence, but it is as Miss Rosie that she will continue to be addressed by many of the customers who come looking for broilers, though she is now Mrs. Rose Gaughan, the wife of Thomas Gaughan.

Until Wednesday night at 11 o'clock "Rosie" was Miss Rose Gallagher. For five years she had sold broilers and other things in the poultry line at stand 77, of which Gaughan is the proprietor. She had a merry smile, had Rosie, and a bit of a pleasantry always at the tip of her tongue.

So there was something like consternation Thursday morning among the regular customers when Miss Rosie's face was missed from 77. Many were the inquiries that they made about her. But the young man who was in her place did not know, or if he knew, he wouldn't tell, and it was not until Friday that it became known that Miss Rosie had gone to Clayton with Gaughan at 11 o'clock Wednesday night and they had been married there by Rev. W. M. Langtry of the Presbyterian Church, and then they had been married again Thursday by Father Shields of St. Mathew's Catholic Church in Chouteau place, and they had gone to housekeeping at 1715 Carr street.

And one old gentleman who had been coming to the stand for five years regularly and as regularly tarrying a bit to talk to the merry Miss Rosie commented, sotto voce, that if he had been Gaughan it wouldn't have taken him half so long to take Miss Rosie into partnership.

For it is into partnership that Miss Rosie has been taken. That is why there was joy at Union Market Friday morning. For Miss Rosie was back and the old customers declared that by any other name she would be just as sweet to them.

St. Louis has more Post-Dispatch readers every day than it has homes.
"First in everything."

Col. Montgomery Leaves St. Louis.

Col. L. M. Montgomery, special agent of the customs department in St. Louis, has gone to Washington to attend a conference of customs officials. It is probable he will be assigned to some other post after a 30 days' leave of absence which has been granted him by the treasury department. If assigned to an undesirable post he will resign. He has been connected with the government service for many years, having been appointed by Gen. Grant, whom he met at Vicksburg, where he was chief of staff to Gen. Pemberton and carried the first flag of truce to Gen. Grant.

GRAIN VALUES CLOSE NEAR HIGH POINT

Bears Lose Some of Gains During Last Few Days—Steady Trade During Day.

Grain values were steady to strong Friday and the bears had little bu-news and crop indications to comfort them. Trade in the pit was not lively at any time, but there was steady, although light, buying throughout the day, the wheat price never being allowed to decline far. Corn got off about ⅛c ahead of Thursday's closing price and showed bullish tendencies all day, closing at 45⅝@45¾c for may and 45⅝c for July.

The cables and the Milwaukee curb were higher at the start and there is some feeling that prices are as low as need be to market the wheat. The crop news was favorable, although some traders professed to scent danger in too much water. The Modern Miller crop forecast said the crop had recovered from any backsets under the favorable weather and the crop is estimated at 475,000,000 bu. Agentine weekly shipments were 3,040,000 bu. Last week's shipments, 2,832,000 bu. Last year, 3,424,000 bu.

In the cash market oats and corn perked up a bit but the wheat was very dull, little good offered. Local receipts, wheat, 10,450 bu local, 2820 bu through, shipments, 59725 bu; corn, 232 sacks and 35,000 bu local, 14,000 bu through, shipments, 425 sacks and 17,720 bu; oats, 27,000 bu local, none through, shipments, 1040 sacks and 35,325 bu.

HAY—Receipts, 350 tons local, 120 tons through; shipments, 325 tons; market dull except on best grades. Market east track—timothy, $12.50 for choice, $10@11 for No. 1, $8.50@9.50 for No. 2. Clover, $11@12 for No. 1, $8@9 for No. 2, $3@7 for low grades. Clover mixed, $8.50@9 for No. 1, $7.50@8 for No. 2. Prairie, $9.50 for choice, $8.50@9 for No. 1, $7.50@8.50 for No. 2; low grades, $6@7. Straw, $4.50@5 for wheat and oats, $9@10 for rye.

FLOUR—Receipts, 4,660 bbls; shipments, 10,450. Dull. Market quotations are: Soft winter wheat flour, wood patent, $4.65@4.80; extra fancy, $4.30@4.35; clear, $3.50@3.90; low and medium grade, jute sacks, $2.50@2.75; hard winter wheat flour, in jute sacks, patent, $4.30@4.50; straight, $4.10@4.20; first clear, $3.50@3.70; second clear, $2.80@3; low grade, $2.75@3.10. Rye flour, wood, $4.50; cornmeal, $2.50; pearl meal, grits and hominy, $2.80.

J. W. ALEXANDER GETS REVENGE

Special to the Post-Dispatch.

NEW YORK, April 28.—H. H. Knowles, for 40 years one of the most trusted agents of the Equitable Life Assurance Society, was yesterday dismissed by President James W. Alexander. The reason for Knowles' dismissal is that he could not be made to keep still when discussions of the inside history of the Equitable were in progress during the recent scandal.

By reason of his long connection with the company Mr. Knowles knew more, possibly, than some of the directors desired about deals involving policy holders' money. Then, too, he was a friend of James Hazen Hyde, the bitter enemy of President Alexander.

He made statements that Alexander did not like, and for that, it is said, was called to account. He stood firm. Later, when a meeting of agents was to be held to protest against Hyde, an effort was made to send him from the city. He refused to go.

In his reply to Alexander's letter dismissing him, Knowles makes the open charge that the reason for his discharge was that his "voice could not be stifled against the Alexander-Tarbell plot."

FEW TRADES IN LOCAL STOCKS

General Inquiry Is Light and Volume of Calls Exceedingly Small.

PRICES GENERALLY EASY

Nearly All Issues Quoted Show Minor Loses as Compared to Preceding Sales.

Very few stocks were brought into the trading at the session of the local exchange today, and on those quoted prices were decidedly irregular.

United Railways common, on the sale of a small lot, lost ⅜ of a point at $31 and United Railways preferred was also fractionally lower at $80. United Railways 4s were easy at $89.12½.

No sales were made in the bank and trust list, but the general run of quotations established showed prices generally unchanged on the call.

Chicago Railways Equipment at $6.97½, Kansas City Home Telephone 5s at $98.75 and Brewery Association 6s at $97.62½ and $97.75 were the active issues in the miscellaneous list.

BODY ON WAY FROM COAST

Adiel Sherwood, St. Louis Lawyer, Dies at Monrovia, Cal.

The body of Adiel Sherwood, the St. Louis attorney who died from tuberculosis at Monrovia, Cal., Thursday morning, will arrive in St. Louis over the Wabash Railroad at 6:30 Sunday evening. The news of Mr. Sherwood's death came as a surprise to friends, as the climate in California had greatly improved his condition.

Mr. Sherwood was a prominent member of the St. Louis bar. After his graduation from the St. Louis Law School he was admitted to the bar 14 years ago. His father was Judge Thomas A. Sherwood of Sprngfield, Mo., a former justce of the Supreme court. Mr. Sherwood was the attorney for many large corporations and much of his practice was confined to the higher courts.

At the time of his death he was the attorney for the Atchison, Topeka & Santa Fe Railroad, the Postal Telegraph Co., the Barber Asphalt Paving Co. and the bituminous company.

He was prominent in Masonic circles and arrangements are being made for a delegation to meet the body Sunday. Mr. Sherwood, accompanied by his wife, left their home at 2 Lennox place, early in January for California.

Mr. Sherwood is survived by his widow, who was formerly Mrs. Castner, to whom he was married in 1896.

New Firemen Named.

Chief Swingley of the fire department announced Friday the appointment of 28 men to fill vacancies and to provide for new vacancies which will be made when older men are drawn from different companies to form the new company which will be stationed at Delmar boulevard and King's highway early in May. The appointments are effective May 1.

GOULD PREPARES WAR ON HARRIMAN

Something More Than a Question of Conscience Believed to Be Behind Resignation.

STOCK EXCHANGE EXCITED

Unloading of Union Pacific Causes Flurry Among Those Who Are Not on the Inside of Deal.

Special to the Post-Dispatch.

NEW YORK, April 28.—George Gould says he quit the directorate of the Union Pacific as a question of conscience. Wall street believes his action really means the beginning of a serious row with E. H. Harriman.

"It is true," Mr. Gould said, "that I have resigned from the Union Pacific. I did so because the time had come when the interests of the road with which I am connected demanded the construction of the Western Pacific through to the coast, and I felt unable to continue on the directorate of a parallel and competing line. The resignation has no other significance."

After saying that he would resign also from the Oregon Short Line and Southern Pacific in the near future, Mr. Gould was asked about the Alton and Burlington roads.

"Why," he said, "I resigned from the Alton some time ago. As for the Burlington, I cannot say as yet."

All yesterday there was almost wild excitement on the stock exchange, but nobody knew just why. Gould brokers began throwing stocks on the market immediately after the opening, and in the minute marketed 4500 shares of Union Pacific at from 125¾ to 125½.

This morning an authoritative statement was made to the Post-Dispatch, which carries the Gould explanation. In part it was:

"It is true that Mr. Gould has virtually severed his connection with Union Pacific, but the public must not be deceived as to the real purport of his action. It does not mean a war between Mr. Gould and Mr. Harriman at all. It can be said most positively that there is no friction between Mr. Harriman and the Rockefeller interests; they are on the most cordial terms."

Nevertheless, Wall street believes that Harriman and Gould have fallen out over the Western Pacific railroad, and at least the sympathies of John D. Rockefeller are with Gould.

Gould's friends say that he charges Harriman with bad faith over a contract with Senator Clark for the Western Pacific traffic. It is said that Gould received assurances that the Missouri Pacific system should have equal facilities with Union Pacific in the use of the Central Pacific outlet to the Pacific coast, but recently discovered that promises have not been carried out.

As a matter of fact, Mr. Harriman has tried to shut Gould out of the Pacific coast and Gould has retaliated by undertaking to finance the Western Pacific bond issue of $50,000,000, which will push that road to the Pacific coast, virtually parallelling the Union Pacific from Salt Lake City to San Francisco.

John D. Rockefeller is highly interested in Missouri Pacific. The sympathies of William Rockefeller are said to be with Harriman.

IN SOCIETY

The two-act comedy by Paul Leicester Ford entitled, "Best Laid Plans," given for the benefit of the Holy Cross Mission at the St. Louis Woman's Club Thursday evening by some of the prominent young people in the fashionable set was the principal affair attended by society. The characters were as follows: Mrs. Wycherly, Miss Elizabeth Allen; Miss Helen Wycherly, Miss Carol West; Miss Rose Newcomb, Miss Marie Taylor; Miss Amy Sherwood, Miss Eugenia McBlair; Miss Mary Allen, a maid. Theron Catlin, McKittrick Jones, John Holliday and Clarence Gamble were the gentlemen in the cast. The first scene was the drawingroom of Mrs. Wycherly's country home, with Mrs. Wycherly surrounded by the young girls, anxiously awaiting the arrival of the English lord, who was impersonated by Hugh McKittrick Jones clad in garments with the hall marks of fashionable English tailors, and the English phrases used by "My Lord" were as exaggerated as his clothes. Miss Marie Puegnet directed the performance, and during the entre act sang "Fruhlingzeit" by Reinhoit. A quartet composed of George Reynolds, George Simmons, James Reynolds and Henry Morgan, sang several quartets. Mr. Schoen and George Luhardt accompanied. The performance was given on the stage of the ball room and the audience was one of the most brilliant in the history of the club.

Ledger-Thomson.

A pretty home wedding was celebrated Wednesday morning at 11 o'clock, when Miss Alice Thomson was married to Richard S. Ledger, at the home of the bride's parents, Mr. and Mrs. D. C. Thomson, 6160 Gambleton place.

The bride was dressed in white and carried a shower bouquet of brides' roses and lilies of the valley. The bridemaid wore pink and carried a boquet of pink carnations.

Miss Lucile Thomson, sister of the bride, acted as bridemaid and Fred Jones as groomsman.

The services of the Episcopal Church were read by the Rev. E. Duckworth, rector of St. James' Memorial Church. After the ceremony the bride and groom departed for a visit to Chester, the former home of the bridegroom, for a brief visit. After their return they will be at home to their friends at the home of the brides' parents.

Robichaux-Trorlicht.

Mrs. Clementine L. Trorlicht issued invitations for the wedding of her daughter, Miss Alice Alberta Trorlicht, and Louis E. Robichaux of New Orleans. The marriage will take place Wednesday evening, May 10, at the Church of the Holy Angels. Mrs. Trorlicht will give a small reception for the near relatives at her home in Lafayette avenue after the service and Mr. Robichaux and his bride will depart the same evening for the East where they will remain several weeks before going to their future home in New Orleans.

Sullivan-Balcour.

Frank M. Sullivan of 1435 Dolman street was married to Miss Nellie A. Belcour of 1418 Dolman street at the Church of St. Vincent de Paul, Father Kelly performing the ceremony, Wednesday afternoon.

The wedding was attended by many invited guests, and was followed by a reception and dinner at the home of Mr. Sullivan's parents. Among those present were Rev. Father O'Reilly and Rev. Father Kelly. E. J. Sullivan was best man and Miss May Belcour, bridemaid.

Hambley Twentieth Anniversary.

Mr. and Mrs. William Hambley of 6211 Ridge avenue celebrated their twentieth wedding anniversary Monuday evening. The house was beautifully decorated with smilax, ferns and cut flowers. Among those present were: Mr. and Mrs. H. S. Tuttle, Dr. and Mrs. Wicks, Mr. and Mrs. Charles Truitt, Mr. and Mrs. Shaw, Mr. and Mrs. Wellington, Mr. and Mrs. J. I. Epstein, Mr. and Mrs. C. H. Marlatt, Mr. and Mrs. A. A. Fischer, Dr. and Mrs. E. H. Johnson, Mr. and Mrs. William Irving, Miss Ethel Hambley, Mrs. A. Johnson, Mrs. E. R. Niehaus, Miss E. Lewis, Miss M. Marlatt, Mr. G. Barry, Mr. J. Scott, Mr. H. Harrison, Mr. and Mrs. W. Hambley, Mr. Leroy Hambley, Mr. Harold Hambley.

Grimm-Bowman.

The wedding of Miss Ruth Bowman and Harry Grimm took place Thursday evening at 8 o'clock in the Congregational Church, at Webster Groves, Bishop Bowman of East Orange, N. J., grandfather of the bride, performing the ceremony. The color scheme was green and white, great quantities of Easter lilies, smilax and ferns making an effective decoration. The bridesmaids, Misses Ida May Hanson, Florence Hunter and Ann Drake, wore gowns of white net over taffeta, made en princesse, with decollete bodices. They carried shower bouquets of asparagus fern. The maid of honor, Miss Winifred Hadley of Edwardsville, Ill., wore a gown of palest green grenadine over taffeta and carried white carnations. The bride's gown was of satin messaline, made in 1830 style, transparent yoke outlined with a bertha of lace, the entire costume covered with the filmy veil. She carried bride's roses.

Mr. Grimm was attended by Messrs. Allan Clark, Roy Mills, Arthur Crandall, Walker Evans and Auborn Moore. After the ceremony a small reception was held at the home of the bride's parents. Mrs. Bowman and Mrs. Grimm assisted in receiving. Mrs. Bowman wore a gown of green peau de cygne trimmed with rare lace; Mrs. Grimm was in a gown of black lace. After a southern trip the young couple will reside with the bridegroom's parents, and will be at home May 24 and 31.

CAPTURE SUSPECTS WITH PISTOLS DRAWN

East St. Louis Detectives Take Two Negroes Wanted for Kansas City (Kan.) Crimes.

Two negroes, arrested by Detectives Stocker and Haggerty at the point of revolvers Thursday night, are regarded by the East St. Louis police as an important capture.

One gave the name of Ben Brown, but later admitted he was Ben Barnes, wanted in Kansas City on the charge of stealing $700 from the bottom of a buggy which he was driving in Kansas City, Kan.; the other gave the name of Harry Boles, but the police say he is Frank Barber, wanted in Kansas City, Kan., for the murder of a negro Mason.

It has been known for several days that the two men were in East St. Louis, but they were not located until Thursday night. The detectives had been warned that both were desperate men, and when they thrust open the door of their room in a negro boarding house at 321 North Third street, each detective held a revolver ready for action.

Barnes surrendered immediately; his companion, who was in bed, sprang at Stocker and tried to take the revolver, but when he felt the cold muzzle against his face became peaceful. Both were handcuffed before being taken to the police station.

In the room were found letters from Barnes' wife, advising him to get away from Barber and leave him alone, as the negro Masonic lodge was after him and knew he was in St. Louis. Barnes says they were to have left East St. Louis together Friday.

Barnes was employed as a driver by William Rodekoff, a street contractor in Kansas City, Kan., and drove him to and from a bank where he got about $700 to pay off his hands. He placed the sack containing the money in the bottom of the buggy. At one point on the drive he left the buggy. Barnes says he immediately took the sack of money and ran.

GEN. FITZHUGH LEE STRICKEN ON TRAIN

Veteran Soldier and Statesman Suffers Apoplectic Stroke on Way to Washington.

WASHINGTON, April 28.—Maj.-Gen. Fitzhugh Lee, U. S. A., retired, was stricken with apoplexy, the entire left side being affected, at 3 o'clock this morning, while on a train en route from Boston to Washington.

The train had just left Harlem River when the stroke came. The train bearing the general arrived in Washington shortly after 10 o'clock. Under the direction of Maj. Kean, U. S. A., of the surgeon-general's office, the patient was removed to the Providence Hotel.

The news of the general's condition had preceded him to Washington, and many of his army and personal friends were at the Pennsylvania station to meet him.

Dr. eGorge Tucker invited Gen. Lee to occupy quarters at his residence here. The general was conscious and received Dr. Tucker in the car, and smilingly replied: "I am in charge of this man Kean, and he says I must go to the hospital, and I guess I will have to acquiesce."

Mrs. Lee, who is at Fort Oglethorpe, Ga., with her daughter, has been notified, as also has the son, George, who is in San Francisco preparing to sail for the Philippines. The other son, who is in the Philippines, has been cabled of his father's condition.

A physician was taken aboard the train at Jersey City. At Philadelphia he gave place to another, who accompanied the general to Baltimore, where still another was taken aboard and made the trip to Washington.

Since the first stroke no change for the worse has taken place.

Gen. Lee has been spending a few days in Boston, booming the Jamestown Exposition, and was returning to Washington on his way to join Mrs. Lee.

Second Baptist Musical.

A musical and literary entertainment will be given at Second Baptist Church Friday evening, April 28, at 8 o'clock, under the auspices of the Y. P. S. C. E. of that church. Those taking part are: Allan H. Bacon, Jr., Miss Leda Minderman, Mrs. W. S. Scrven, Miss Carrie Auth, Miss Ednah Condon, Charles A. Finlay, Miss Mayme Rothschild, Elmore Condon, Miss Elizabeth Scammell and the Rienzi male quartet, Duncan R. McKay, Jr., Wesley C. F. Ebert, J. Hanley Yore and Charles A. Finlay.
